Having fully examined and inquired into the merits of these Plows we unhesitatingly assert that they will give more satisfaction, and will be cheaper in the end than any other Plows to be had. These Plows have REVERSIBLE SLIP POINTS, and the following advan-1st. The point can always be kept sharp; when it wears dull, or rather with a bevel that has a tendency to throw the plow out keep the plow down to its work.

2d. It is claimed that one share will wear out three points, and, independent of the advantage of always being able to keep the plow in good running order by having a sharp point, much is claimed 1 Bay Mare, for it on the score of economy. It is claimed that there is no more liability of breakage than with the solid share. We therefore offer them to the Farmers of Kent, confident that they will soon realize their genuine merit. The demand for these Plows is very
