INGERSOLL'S CREED.

BY R. J. BURDETTE.

With the above title some one sends us a little

onest industry is as good as pious id!eness,' before the Colonel thought of it-"Faith withou

"Christ believed the temple of God to be the heart of man."-Ingersoll.
Yes that is orthodox, too. We "must worship Him in the spirit." "Know ve not that ye are

"If I go to heaven I want to take my reason s I am known."-1 Cor. xii. 12.

now I know in part; but then I shall know even "Fear is a danger with which hypocrisy assas That is good gospel, and "perfect love casteth I owe Smith ten dollars, and God forgives , that doesn't pay Smith."—Ingersoll.
Correct you are; the prayer of Christianity is,

haven't the right to follow it, what then have you the right to follow?"—Ingersoll.

That explains why the Indians have no super-

"People who have the smallest souls make the most fuss about saving them." Ingersoll. Of course, Colonel, they are the hardest kind

Well, that's perfectly orthodox. "For if ye forgive men their trespasses, your Heavenly Father will also forgive you; but if ye forgive not men their trespasses." "For with what judgment ye judge, ye shall be judged; and with what measure ye mete, it shall be measured to you."
"Upon the shadowy shore of death the sea o ouble casts no wave."-Ingersol The Colonel must have been singing that good old hymn. "When I can read my title clear," in which occur the lines: "And not a wave of trouble roll

Across my peaceful breast." THE DISASTERS OF THE YEAR. - The year 1883 is destined to be memorable for disasters. We are accustomed to the occurrence of annual cy clones in our more exposed Western States and Territories and to the destruction of life and property they occasion. But, dreadful as they are, and a source of continual fear to those who intrack of the storm are exposed to its ravages.—
This year the loss of life and property has been unusually great. But, serious as it has been, and deeply as the effects are felt because the sufferers are our own people, other parts of the world have Adjoining New B. & O. Building, had, from earthquakes, as in Java and from cholera in Egypt, their victims by thousands .- j2-3m. And when we had scarcely reached the edge of us from every quarter accounts of disabled vessels and of shores strewn with wrecks. Within COAL! have been subjected to storms of unusual severity ceeded in weathering them have come into port crews to keep down, and with broken masts and bulwarks. Off the Grand Banks the fiercest gale quality of Anthracite (White Ash) Coal of the season struck the fishing fleet and inflicted known to have foundered and many lives have to call and see us before buying

been lost. Capt Nickerson, of the schooner Bes-Newfoundland badly strained and leaking, shattered dories, broken booms, spars, gaffs and other gear of fishing vessels." The storm also extended across the Atlantic, and numerous cases of disaster are reported. On land great damage was done to the crops in England by the contin-At Frascati the shock of an earthquake was fe on the lakes and hurricanes in the Gulf of Mexico gions adds another to the record of calamities in that quarter. Taking all these things together -cyclones at the West, and earthquake involv-

own thinking to a much larger extent than ever before. Brass bands and stump speeches count for much less than they used to, and the successful political party of the future will be the party who has the courage to select the man for what's in him personally and trust the result with the

We Desire to Call the Thoughtful Attention of Farmers

TO THE SUPERIOR MERITS OF

AS A FERTILIZER FOR

WHEAT AND GRASS.

The advantages resulting from its use are not only an increased yield, but the permanent improvement of the soil from the abundant growth of grass which is sure to follow.

"ORCHILLA" is no new thing. For eighteen years it has been undergoing trial,-and well has it stood the test. At first, its progress to favour was naturally slow; but merit will, sooner or later, have its reward, and now its sales every year are largely increased over those of the preceding year, and the friends of its early days are its best friends now.

It has been used extensively in Maryland, Pennsylvania and Virginia, and from its abundant success everywhere, we are justified in recommending it to you as being well adapted to your soils. No fertilizer for your use has had such unvarying success and continued popularity. Some of the largest and best farmers in these three States use it almost exclusively It is Successful, because it is Nature's own provision for her exhausted fields.

It is Low Priced, because we have none of the expense of manufacturers, and, without regard to its high commercial value, we base its price solely upon its actual cost to import.

We refer you below to some of the farmers who have used it, and ask you to enquire of them as to its merits.

WOOLDRIDGE, TRAVERS & CO., Importers, 64 BUCHANAN'S WHARF, Baltimore,

JESSE HUFFINGTON, Allen P. O., Wicomico Co., Md., says: "I have been using Orchilla Guano for a number of years. I have tried it carefully on my own land, and have seen its results on my neighbors' lands also, and I assure you I cannot say enough in its praise. From the condition my land is now, I am free to say that I consider, if I had given away the first crop I raised from Orchilla, I would have been well repaid by the improvement to my land, and the crops I get now. If I could get any fertilizer in the market at the same price as Orchilla I would far rather take Orchilla, because I have proved to my satisfaction that it is not only good for one crop, but it is a permanent improver of the soil, and will insure fine grass for years to come. I don't care how poor the land is, I believe Orchilla will bring it up. There will be twice as much sold in this neighborhood this fall as was last.

WM. C. SATTERFIELD, Greensboro', Caroline Co., Md., August 1, 1882, says. "I have been using Orchilla Guano for fifteen years largely. I have frequently tried other fertilizers, but fell back on Orchilla. I believe it a good, permanent improver of poor lands.'

JOHN PRICE, Cordova, Talbot Co., Md., writes, June 18, 1883: "After several years' trial of Orchilla Guano, I like it so well that I do not want GEO. C. GRAHAM, Trappe, Talbot Co., Md., writes, June 20, 1883: "I gave Orchilla Guano trial last fall by the side of two other brands of

high-grade standard fertilizer and I am best pleased with the Orchilla." H H. PRICE, Longwood, Talbot Co., Md., writes, June 21,1883: "I have used Orchilla Guano for several years, and have tested it by the side of high-priced fertilizers, and I decidedly give the preference to Orchilla."

W. SPRY SHERMAN, Vienna, Dorchester Co., Md. writes, July 16,1883: "Most of the best farmers and heaviest wheat growers of this districtsuch gentlemen as JAMES MITCHELL RIED, ALFRED H. MERRICK, WM. H. TURPIN and others, have used Orchilla Guano for years, and still use it almost exclusively. In fact, some of our large wheat growers, who for years declined to use it, are now using it exclusively for wheat and corn, and say that it is the BEST fertilizer in the market for clover and grass. The sales this year will be much larger than ever before.'

THOMAS H. TRAVERS, Taylor's Island, Dorchester Co., Md., writes, June 11, 1883: "I used on my wheat last fall 21 tons of Orchilla Guano, at the rate of 250 pounds to the acre. It covered over one of my fields, and a part only of the other. My regret now is that I did not buy enough to complete my seeding entire, as it would have paid me 100 per cent. on its cost. I am positively certain that I have more than double the quantity of wheat on the fertilized ground that there is on the unfertilized; some of my neighbors say there is three times as much. The young clover from the Orchilla is all that the most exacting farmer could desire. This is the second year I have used Orchilla, and it has given me the same gratifying result each year, growing me more wheat and clover than any other fertilizer I have ever used- Peruvian Guano not excepted. I do not hesitate to say that I believe it is unsurpassed as a grain and grass producer. I shall continue to use it as long as I conduct a farm-if it can be had, believing that with it, and the use of clover seed alone, the highest state of fertility may be reached."

ROBINSON BARNES, Taylor's Island, Dorchester Co., Md., writes, June 25, 1883: "I purchased a ton of Orchilla Guano last fall, which I applied to my wheat at the rate of 150 pounds to the acre. It has given me great satisfaction. It has produced more than three times as much wheat as where no fertilizer was put in the same field. The grain is fine and plump, and the heads are the largest I have ever grown. This is my first use of Orchilla, and I want no better manure. I will use it this fall in increased

JESSE W. DOWNS, Dayton, Howard Co., Md., writes, June 16, 1883: 'I have used Orchilla Guano for the past four seasons on wheat, rye, corn and potatoes, and find it equal to any high-priced fertilizer that I have used in the past ten years. On good land it makes fine crops at once, and on thin land, I have watched its action carefully, and can say with truthfulness that it is a sure and permanent improver of the soil. It certainly makes 'poor lands rich.' I am only sorry I did not get hold of it long ago. All who have used it in this neighborhood speak well of it, and will use it again this fall."
