GOSSIP ABOUT THE PRESIDENT.

What He Is Worth and His Charitable Keep on hand a general supply and make Cleveland Leader. A lawyer friend of President Cleveland, from

Buffalo, gives me some interesting gossip about him. Said he: "President Cleveland is worth about \$100,000, and he owns considerable real stock of first class well seasoned mateestate in Buffalo, which is fast growing in value. rial of all kinds, therefore we can and do He made about \$25,000 a year at his practice before he got into politics. He is not an extravafore he got into politics. He is not an extravawork that rattles to pieces in less than a
work that rattles to pieces in less than a
work that rattles to pieces in less than a gant man in any of his tastes, and has never been year from imperfect workmanshi, so. He had a class of cases at Buffalo which unseasoned material. paid well, and he was often the counsel for big corporations in big cases. While he was governor of New York he gave away the whole of his salary in charity, save that which he used for his personal expenses and for the support of PLOWS, HARROWS, CULTIVATORS. his mother. I have seen many instances of his

"One night I was with him in his private office at the Albany Capitol. It was after he had been elected President. He was opening his mail, and many of the letters contained requests for alms. I saw Governor Cleveland \$5, \$10, and at one time a \$20-bill in an envelgar. One case was especially touching. It was that of an old man in Southern New York who had lost his born by Australia and Repairing had lost his horse by death. He had a little garden patch of a farm, and this horse was his sole means of making a livelihood upon it. He had raised some money by contributions from his neighbors, but still lacked enough by \$20 to buy the horse, which was to serve as the support of himself and his gray-haired wife.

Some of his neighbors had heard of Cleve- and see for themselves, get prices and land's charity, and had suggested that he write examine our work of Twenty-four years' FRANK WRIGHT to him and ask him to help him. From the experience tenor of the letter you could see that the old man Thankful for past patronage we solicit was very proud of its composition and hand- a continuance of the same. writing. He said that he had written it himself We are also agents for Kent county for with his own hand, and the appeal throughout Hench & Drumgold Riding V was that of a simple-minded, unsophisticated, vator, the Taylor Riding Wheel Cultichild-like person. Cleveland's eyes filled with vator, The Taylor Iron Frame Cultivator tears as he read it, and he put a \$20 bill in an and the celebrated Beedle & Kelly Corn envelope and sent it to him with a few kind Planter, and the Oliver Chilled PLOWS. words. I have no doubt," concluded this man, Also all Repairs for same. "that President Cleveland is giving away a Correspondence solicited. All orders great deal of his salary in charity. If he does so by mail will have prompt attention. White House will know of it."

Floating Suits.

Buoyant clothing has been devised by a Londoner, and seems to be attracting some attention in that metropolis. Threads of cork are interwoven with cotton, silk or wool, machinery which slices the cork to the required thinness forming part of the invention. From these new materials clothes of ordinary appearance are constructed which bear up the wearer when committed unexpectedly to the water. The worth of the new fabrics was thoroughly tested by throwing three persons clothed in them from the end of a pier. They floated as easily as if incased in cork jackets. It is said that they remained in the water over an hour without discomfort. The possibilities of fireproof apparet LUMBER.

Love of Children. Poodles do not take the place of children in Mexico. The native love for babies is great. It is the children's paradise. Children are loved and petted in public to an extent that makes an American, used to the stolid ways of his own country people, open his eyes in astonisment and pleasure. There is no affectation in the matter. A little child is the pet of the people. A baby is every one's admiration, and here you see fathers out walking with their children for the pleasure of the children's company. In shops and all places where people meet, children are petted, and a baby in a shop is seized and carried by an army of male admirers.

ATTORNEY-"Miss Someage, you are the plaintiff in this suit of breach of promise, I believe? "And Mr. Squeak, here, is the defendant?"

"Well, Miss Someage, you may tell the court how and when he promised to make you his "It was on the third of September last, sir. I went into his photograph gallery and asked him if he would take me and he said he would.

"I wish you would renew this note. My father will endorse for me," said a Texas youth to Mose Schaumburg. "Ven a fader has got no more sense than to endorse for such a son as you vas, vat segurity ish dot for me? Dot shows dat your fader vos a block of de young chip.'

143 N. HOWARD STREET,

BALTIMORE, MD.

We take pleasure in again calmng the attention of farmers to our High Grade sumers under their present form; and from that time until now there has been an increasing demand for them, which is a far better testimonial to us than any letters of praise could be, although we do not want for these latter, as we are in receipt of many. It has been our aim to put up the best fertilizers we know here the content of the property of the content of many. It has been our aim to put up the best fertilizers we know how, and the kinds of fixtures, &c., needed for Fall results in the field clearly show that we have hit the mark right in the bull's eye, and we believe if consumers will take our target (American Brand, bull's head) they will a good result every time—the bull's eye, if their aim is good.

THEIR CHARACTER.

The main characteristic of our fertilizers is that they are prepared with particular reference to the crop, and not to a chemical analysis; the latter does very well in its place, and we believe in chemistry thoroughly, but consumers are too often deceived with the idea that a chemical analysis is the main thing, and if they get a good analysis and high commericial valuation as figured out with arbitrary for Goods prices by the chemist, they must have a fine fertilizer. Now it may happen that a fertilizer, with a commercial valuation of \$25 00 per ton, will give a better result on the crop than one with a valuation of \$40 00 as based on a chemical analysis. And why should this be? Only because the material used in the one valued at \$25 00 was better adapted to the grow than the other. better adapted to the crop than the other.

THEY ARE UNIFORM.

The goods we manufacture are uniform in composition, and are only varied in proportions, year after year, as we believe it to be an advantage to the crop. We HAY &c.,

have such large supplies of Bone, Blood, etc., from the slaughter establishments of New York, that our fertilizers are largely composed of these, and there is not that inducement for us to use cheaper material, that there might be, if we did not have

BONE FERTILIZERS.

Our products are of a bone base, because we believe that is the most satisfactory source of phosphoric acid, and the large amount of animal matter our fertilizers contain makes them especially valuable in what may be considered the off or which MUST BE SOLD, and in order M., stopping at Quaker Neck and Long poor seasons Some years it is noticed that almost any fertilizer will give fairly that they may be sold soon I propose to Cove wharves. good results, but we find themost favorable comparisons for our products are in
