

Kent News.

SATURDAY MORNING. - AUG. 1, 1886.

SAMUEL J. TILDEN DEAD.

Samuel J. Tilden died at 8:50 o'clock Wednesday morning at Greystone, his country seat, which is three miles from Yorkers, N. Y. Mr. Tilden was taken ill on Sunday, and on Monday evening he was seized with a fit of vomiting, which caused him much distress. The vomiting was repeated at intervals during Monday night and Tuesday, and the invalid was also seized with colic. On Tuesday night he also was seized with severe pain in his loins, and it was found that he was suffering from a kidney ailment. His bowels were very much distended and passed so severely on the diaphragm that the action of the lungs and heart was seriously interfered with. He was unable to sit up, but the patient became unconscious about four o'clock next morning and grew rapidly weaker until his heart ceased its pulsations entirely. The intelligence of Mr. Tilden's death was widely accepted, although his intimate friends have known for several months that he was falling in strength very rapidly. He was completely paralyzed on his right side, his left leg and arm were almost useless. His power of speech practically left him more than five years ago, and recently his vision, even when corrected by glasses, failed. Mr. Tilden owned a magnificent city estate on the south side of Greenwich Park, and he has been constantly occupied in real estate operations there. He has not occupied the house himself in more than four years. He has been traveling between Yorkers and Greystone, and New York was fatiguing, and four years ago last spring he decided to make Greystone his permanent home. There he kept up his interest in politics to a certain extent, and received and entertained his most intimate friends. The last hours of the deceased were most peaceful and painless. Mr. Tilden was born in New Lebanon, Columbia county, N. Y., on the 22d of February, 1814, and was consequently in the 72d year of his age.

The death of Mr. Tilden suggests the fact that the democratic party has lost no less than four of its former candidates for the presidency within a comparatively recent period, viz., Mr. Fremont, Mr. Tilden, Mr. Cleveland and Mr. Grover. Mr. Tilden and Mr. Cleveland are respectively in 1864, 1868, 1876 and 1880. Mr. Grover was the candidate of the democratic party in 1872, and it is noted that Mr. Cleveland alone remains of those who have been the democratic standard-bearers since the election of 1860.

A BIG TIME AT TOLCHESIER.

Military Encampment - Visit of the Governor and Other Officials.

Tolchester has been the scene of unusual activity recently. The Baltimore Light Infantry, an organization of four companies, encamped on the high bluff near the hotel last Saturday and made things lively during their stay. The hundred tents were pretty well set up; they were arranged as to form four streets running at right angles to the bluff, and a cross street at the east end of the camp was formed by the officers' quarters; a small strip of growing corn was planted in the center of the camp, and the "Howards" was the name given the encampment, and Lieutenant Colonel Harry A. Barry, who was in command of the company, was present. The day was disagreeable in consequence of frequent showers. Rev. Henry Wood, pastor of St. Paul's parish, in this city, preached a sermon to the regiment from the text "Qui se vult amare seipsum, et caritatem suam diligat." He earnestly exhorted the men to create a Christian name for themselves. Tuesday was the memorable day of the encampment. It was estimated that five thousand persons were present, including the Governor, the President of the Board of Education, the Mayor, and other officials. The day was spent in various exercises, including a military drill, a band concert, and a picnic. The Governor, Mr. McKim, was the guest of honor, and he was warmly received by the officers and men. The day closed with a grand ball, which was attended by a large number of the guests. The encampment was a great success, and it was a pleasure to see the Baltimore Light Infantry in such a state of discipline and order.

A GOOD MAN GONE.

James Kendall, a well-known citizen of Fairfax, died last Thursday night.

A pure Christian life he lived, and died respected and honored by all men.

Lightning Struck.

The residence of G. B. Hackett, in Millington, was struck by lightning about 4 o'clock p. m. on Sunday last and the window in the second story was considerably shattered. Mr. Hackett, with one of his children, was lying in the room, not over two feet from the window. It also struck and completely burned a small tree on the sidewalk.

At Meetings on the same afternoon lightning struck the house of Mr. John H. Woods on the north side of the city.

The lightning struck in two places, one portion of the building was in flames, and a large number of the household goods were destroyed. The fire was extinguished by the fire department, and the damage was not extensive.

UNPRECEDENTED.

On Monday last there was a decided change in the weather; the rain ceased and the wind came from the west, giving us cooler weather and a longer season of sunshine than we have had for a long time. For four months past we have averaged two or three heavy rain storms, making us a spring and summer of wetness unprecedented. The rain last Sunday evening was the heaviest in the history of the city, and it was accompanied by a strong wind, which, when it blew, was very oppressive to the water way. Conductor Swann of the Baltimore and Annapolis Railroad, who was on duty at the time, says that he never before saw so much water in the road-bed.

PROF. HARRIS ON THE MOUNTAIN.

Prof. F. L. Harris, who has served for five years past as vice-president of Washington College, and who now resides from that institution, was the recipient of a letter from the trustees of the college, asking him to visit the college on Saturday, and to be present at the annual meeting of the board of trustees, which was held at the college on Sunday last. Prof. Harris, who is a well-known and respected member of the college, has accepted the invitation, and he is expected to arrive at the college on Saturday morning.

THE DOCTOR WAS COMPLETELY SURPRISED.

On Monday last a young man, who was a member of the Baltimore Light Infantry, was brought to the office of Dr. J. W. Perkins, who is a well-known and respected physician in this city. The young man, who was named John H. Woods, was suffering from a severe case of cholera, and he was in a very critical condition. Dr. Perkins, who has been called upon many times to attend to cases of cholera, was completely surprised by the case of John H. Woods, as he had never before seen a case of cholera so severe. Dr. Perkins, however, did not lose heart, and he set to work to treat the young man. He gave him a large quantity of medicine, and he kept him in bed for several days. The young man, however, did not improve, and he died on Tuesday morning. Dr. Perkins, who is a very experienced physician, says that he has never before seen a case of cholera so severe as that of John H. Woods.

ON SATURDAY, Aug. 28, 1886, at 10 o'clock a. m., at Roe's Store, in Kent county, Maryland, I will sell to the highest bidder for cash to pay and satisfy said debt, the following property, to-wit: One lot of land, situate in the same place, containing one acre and one-half of land, together with the buildings thereon, situate in the same place.

Constable's Sale.

BY virtue of one writ of fieri facias issued by Arthur B. Wheatley, one of the Justices of the Peace, for Kent county, Maryland, at the suit of A. J. Son, against the goods and chattels of James H. Reed, I have seized and taken into execution all the goods and chattels of James H. Reed, in and to the following property:

1 Horse and Carriage and Harness, THE HOUSE and LOT

upon which he now resides, together
