The Reason there is not more advocates for the use of Corn Fertilizers arises from the fact that a good many Fertilizer men put on the market a goods which they sell for \$12 or \$15 per ton. The Farmer buys, and applies as though they were Concentrated Goods, and the result is they are not pleased and condemn all But they ought to think for themselves and know that there is nearly as much profit to the Manufacturer in a cheap goods as there is in a Superphosphate. Therefore buy Concentrated Bone Fertilizers and if you want to cheapen them a little you are the one to do it, without paying freights and profits on cheap and worthless

MR. J. WARD DAVIS, near Cecilton, Md., MR. JESSE H. USILTON, near Fairlee, Md. says the Extant Bone Superphosphate bought of us last Spring and used on his Corn certainly paid him handsomely and that he only regrets he did not fertilize his entire crop. MR. RICHARD SMYTH, near Fairlee, Md., says he could tell by the looks of the Corn just as far as the Extant went and that it paid him. MR. WM. I. BOWERS, near Still Pond, Md.,

used our Fertilizer on his Corn with marked results and that upon one occasion by an applica-tion of two tons is sure that he had seven hundred bushels more than he would otherwise MR. C. BROWN & BROTHERS, near Pomo-
