FALL FERTILIZERS!

T. W. ELIASON, JR.'S

I again offer the Farmers of Kent these two Reliable Brands of High Grade Fertilizers. They are both Complete Fertilizers, being rich in Ammonia, Available Phosphoric Acid and Potash, and do not contain a single pound of adulterating material. Their excellence has been proved by their Uniform Success running through a period of ten years' liberal use by many of our most successful farmers. This Excellence will be maintained, and no demand for eaper phosphates will induce us to lower the quality of these brands. PRICES are somewhat reduced from last season, and will be

CAN YOU

The low price of Wheat and the High Price asked for the Usual Fertilizers? WE THINK NOT!

Have You Noticed the Results of Our Goods compared with others and in nearly all cases much Higher Priced

Phosphates? show and witness the trials of speed, and return at If so, you have also noticed that we were better in results as well as Lower in Price. We realize your situation. We are willing and anxious to help you. We cannot be undersold. Our goods have no equal for the money, and if price, quality and square dealing will make a customer of you, then we intend to sell you.

What do you think of \$24 For High Grade Phosphate equal in every way to the Usual \$35 Fertilizer?

We have such a goods that we are now offering at this price. Space will not permit, but see what our highest grade and lowest grade will yield you. The following certificates are the result of a trial test on two acres, on lawn of Jos. E. Gilpin, Esq.: Chestertown, Aug. 1st, 1887. I hereby certify that I attended the cutting, shock-This is to certify that I have measured the wheat | ing and threshing of the wheat mentioned in the cerraised upon the lawn of J. E. Gilpin. One-half of the tificates here presented. lawn on one side a High Grade Chestertown Fertilizer was used; upon the left side of the front gate going towards the house, measuring 28% bushels.

Signed. JOHN W. DAVIS. This is to certify that I attended to, assisted and

nard's Fertilizers were used and 32% bushels of wheat to either side of lawn were threshed. Signed, JOHN W. DAVIS. Signe T. J. DAVIS. Allowing 80 cents per bushel for wheat, and 400 pounds to the acre—the amount SECOND TRIAL—2.39 class, pacers; premium \$250, for used—and our fertilizer costing \$4.00 per ton less than the other, the result shows that our goods gave a clear profit over the other of twenty dollars per each ton used. The Kent News mentioned last week a wonderful result for the season on the farm of Josias Ringgold, Esq., he having threshed thirty bushels to the acre, with our

lowest price fertilizer. Mr. Ringgold says: Chestertown, Aug. 3, 1887. | J. W. Jarman, Chesterville, received a very sati Gentlemen :- The goods I purchased from you last factory yield from our fertilizer the fly and worm had not troubled it, I would have received forty bushels per acre. You have my order

for this fall and also say that your goods are better | John Edwards, Chesterville, reports twenty-eight and cheaper than any goods I have ever used. JOSIAS RINGGOLD. bushels to the acre from the Monarch Fertilizer. We could name many more, but call and see the reports and save money by

giving us your order early. KENNARD,

CAN IT BE POSSIBLE!

THE GREAT WHEAT AND CLOVER PRODUCER.

Then we must plead guilty for not having seen you last season. But we were kept so very busy supplying those farmers who knew or had heard of its merits that we did not have the time to acquaint you with the same. But the facts are in view of the low price of grain and seeing the need of the farmers, we determined to try and meet their requirements. Having watched the market carefully we have succeeded in buying our stock LOWER than ever before, and by shaving our profits we are offering the farmers to-day Our Old \$32 Goods for \$27, Time Without Interest, and Deliver it Without Freight. Being the pioneer manufacturers of the Shore we necessarily have had large experience in manipulating Superphosphates and we are now thoroughly convinced that OUR A. A. is one of the finest combinations for wheat on the market without regard to price. As the whole 2,000 pounds is composed of Animal Bone, Nitrogen or Animal Matter, S. C. Floats and Potash-not one pound of Plaster. Sulphate of Soda, or any cheap or worthless materials entering into its composition-and

this is not all theoretical but by reading these testimonials will be seen to be practical:

how I like your A. A. Bone Superphosphate will say I had a very satisfactory yield. We used about 30 '85 I purchased of you 12 tons of A. A. and used it on tons of A. A. and so far got an average yield of 17 our three farms in connection with a goods that cost R. BENNETT WILLSON.

bushels for one. Also have good grass from its use. us \$8 more per ton, and in every instance yours took Mr. Stewart Matthews and Mr. Wm. W. Newcomb | load of 200 sheaves from each, and whilst there was say they used our A. A. on Stalk Ground and Fal-low and got an average yield of 26 bushels per acre, yielded several bushels more per acre. My grass too and that they expect to use it again. was good, this led me to go into it more heavily, and Mr. Allie Baker, near Fairlee, Kent county, says | we used 23 tons last fall, and whilst wheat generally he used A. A. in connection with two other of the highest standard goods on the market and A. A. was acre. I expect to use it again this fall.
