Resources Increased from \$15,228.21 to \$177,269.87

The People's Bank of Chestertown has been engaged in business

just two years, having opened its doors September 1, 1910. The record of these two years, as shown by the following tabulated summary of resources, indicated in the sworn statements made to the State Banking Commissioner and published at intervals of about three months, is an exhibition of substantial growth and development extremely grati-

fying to the officials and directors and must be likewise to all stockholders and friends of the bank. To grow in resources from \$15,-000 in September, 1910, to more than \$177,000 in September, 1912, in the face of local conditions, is certainly an achievement worthy a feeling of satisfaction and pride. It is moreover a marked testimonial of public confidence in the business integrity of the management and an unfailing augury of the stability and permanent suc-

cess of the institution. The following statement shows how this bank is climbing the ladder of success and growing in
