"Attention Farmers !"

Guano Excelled DE BURG.

Tis a settled point with all Chemists and sci times. In his stock of sis of wheat, rye, corn, oats, potatoes, tobacco, by its continued application.

it, is to furnish the land with the cheapest manure, that will grow the largest crops, and a at the same time improve it.

The object of De Burg is to supply to the soi! Linan Drillings Linen Ducks, Satin and Marseilles Vestings, Cravats, Hdkfs. and a variety its grow.h and maturity, and leave a surplus for its subsequent improvement. Not supplying yearly costly manures for the one crop alone, without a prospect for future benefit, but to grow as large crops of every description as guano, and add permanently to the improvement and fertility of the land.

alone is attributed to the large amount of fertilizing matter which it contains, and any one ble to the practical farmer, as either of the two and see his goods. which guano supplies. Many experiments have been made recently, relative to its value as compared with the best Peruvian Guano, and a preference given to it as a manure, being quite as effective in its action

less volatile. Dr. David Stewart, Professor of chemistry at St. John's College, Annapolis, Md., and Chemist to the Md. State Agricultural Society-analyzes every lot of De Burg we receive, and says,

in his report to us: ty valuable to the practical farmer than any been piled 12 months. It is offered for sale on kers, Cartwrigh s and Machinist generally, that mixture of phosphates and ammonia, or manipu- very accommodating terms.

and phosphates are present." Again he says:-"I do not think there is a Chestertown, Sept. 20, 1856. compound now offered for sale; that contains as large a proportion of Phosphates, combined with the same quantity of Ammonia, as this,

and there is a remark able uniformity in all the

cargoes of this manufacture." S. W. Spencer Esq., Chestertown, Kent Co., Md. says:-- "Last spring I made some experiments with De Burg, on my corn crep, and there is no question about its valuable properties for corn. It pushes corn beyond any manure I e

was a great difference in my corn last year where Wood seat Chairs and Setters and Rocking I used De Burg and where I did not. I applied it at the rate of a handful to three hills at plan-A. MATHIOTT, 25 North Gay St.. 15th July, 1856: "I applied De Burg on corn on reasonable and accommodating terms. near Fayette street. last Spring, a table spoonful to the hill, and vessel is now loading at Port Deposit, with a to wet the corn to the roots, since it was plant- sold at low figures.

> ing color, and where there is none, about six- ber to those disposed to purchase. teen inches owing to the drought. I consider it the best fertilizer I have ever tried. Queen Ann's Co .- Phi emon T. Cook, Esq., Centreville, Md., says, Jan. 7th, 1857: "Last spring I applied DeBurg in the hill on my corn, most sanguine expectations were realized.

er than Peruvian Guano." NOTICE. For the protection of our own and the farm erls interest, and to avoid any mistake on the part of the manufacturer, every lot we receive accommodating terms. is thoroughly inspected and analysed, by Drs David Stewart, Chemist to Maryland State Agricultural Society, who rejects all that does not ome up to the fixed standard; thereby guaran.

teeing to the farmer a uniformity not to be founin Guano or any other fertilizer; and farmer BEAR IN MIND, That it is only De Burg that produces the above results, and in consequence of the greatly in-

Farmers should therefore be particular, and The genuine is in barrels with white heads, ster. cilled C. B. DE BURG'S No. 1 AMMCNIATED SUPER-PHOSPHATE OF LIME, in black letters; to secure which call on or address.
