ENGINES

Do You Consider Putting in an Engine For Pumping?

If you are now using a large engine for pumping, have you thought of putting in a small one just to do the pumping and save money in wear and tear and in fue consumption. It will not take long to save enough to pay for a small engine. We have sold a number of small engines for this purpose this Fall. Our latest offer for 1½ H. P. engine with builtin Webster magnety, speed regulator and every other modern attachment is

\$42.00

This price is good until Dec. 1st, as we have notice now of an advance on that date. You have to see this engine to appreciate it. Larger sizes in Throttl ng Governor Oil-burning En-) gines at correspondingly low prices. 5 H. P. at

This is not a cheap line, but a good line at a low price. We install Engines. Pumps, Tanks, Piping all at moderate prices. Let us () estimate on your wants.
