FOR SINKING SHIPS

Notified That Reparation Will Be Demanded

SIGNIFICANT WARNING

For This Germans Also Must Pay-Those Who Ordered Sinking Of Warships At Scapa Flow To Be Punished.

Paris.—Germany has been notified by the Allies that they possess the right to punish the persons responsible for the destruction of the German chips and to collect reparation for the loss. The sinking of the fleet is denounced as a violation of the armistice and a deliberate breach in advance of the conditions of peace.

When the investigations have been completed the note states, the Allies will exact "the necessary reparation." Germany is warned that such acts as are noted "must have a very un-

fontunate effect upon the future operation of the treaty." Germany's Eludes protest against the long period of Allied occupation provided for in the treaty and her complaint that tions might be too long delayed are contrasted in the note with the vioher admission to the League of Nalations of her engagements set forth. It is pointed out inferentially that the treaty provided for successive Military Revolt May Be Attempted- Measure Now Goes To Conference, evacuations of various parts of German territory at stated periods, and that it is stipulated that the occupying forces should be withdrawn entirely at any time Germany had under the treaty.
