J. H. EMERSON, Editor. DENTON, MARYLAND: Thursday Morning, Nov. 4, 1875

The election in this county on Tuesday passed off quietly at the different voting places except at the polls in this place. The result is a defeat to the King ticket but the exact majorities we are not able to state to-day.

The County Printing. When the Journal intimates that the money which is paid to the Usorz for the county printing is "hush money" it makes a grave reflection upon the character of the Board of County Commissioners.

So far as the charge that the Usorz's accounts are increasing while those of the Journal are diminishing, the reverse is the fact. The Journal well knows, if it knows anything, which we sometimes question when we observe its conduct of a newspaper that the rates of the two papers are about the same, (or were when the late Dr. Tarr owned the Journal—under its present management we are not surprised at any variations in schedule prices) and since both papers do the same work, the amounts charged by each should be about the same.

Another letter from Judge Thomas on Finance.—Hon. Robert W. Hughes, judge of the United States Court for the Eastern District of Virginia, has written another letter on the financial question, in which he says: "Until lately I had supposed that both the South and the North had had enough of inflation to make them avoid it for many generations.

Even bean plucks a leaf from a coquette; she that thorns only remain for the husband.

The Journal and its "Seag."

The Journal files into a passion because of our expose of its collection from the State Treasury of more than fifteen hundred dollars for which it did not render an equivalent in work and was not, therefore, entitled in a moral view at least, to receive. Such action is very natural; men are usually sensitive when acts of questionable propriety are bared to the public gaze.

We have shown how the printing was done. Now for the pay. A printed statement was there ever a clearer outline showing that the Journal received \$1,550 for this work. And yet it had done nothing.

We are aware that the JOURNAL is not the only paper which is guilty of this outrage. Almost all of the papers in the State to which the publication of the laws are given resort to this plan of performing the work. It is less laborious and more profitable. But this does not excuse the Journal, nor mitigate its offense.
