MILLIONS Bear Testimony to their Wonderful Curative Effects. Vinegar Bitters are, not a vile Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors, doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers." "Restorers, '&c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair. They are a Gentle Pargative as well ns n Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and of all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanbood or at the turn of life, these Tonic Bitters have no equal. For Inflammatory and Chronic Rhenmattsm and Gout, Dyspepsia or Indigestion, Billions, Remittent and Intermittent Fevers, Disenses of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs. DYSPEPSIA OR INDIGESTION, Readache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Month, Bilions Attacks. Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms are the off-

eprings of Dyspepsia. They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of nnequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the FOR SKIN DISEASES, Eruptions, Tetter

NEW FEATURES FOR 1873. ART DEPARTMENT.

The enthusiastic support so readily accorded to their enterprise, wherever it has been introduced, has convinced the publishers of THE ALDINE of of the soundness of their theory that the American public would recognize and heartily support any sincere effort to elevate the tone and standard of illustrated applications. lustrated publications. That so many weakly wicked sheets exist and thrive is not evidence that there is no market for anything better—indeed the success of THE ALDINE from the start is direct proof of the contrary. With a population so vast, and of such varied taste, a publisher can choose his pairons, and his paper is rather indicative of his own than of the taste of the country. As a guarantee of the excellence of this department, the publishers would beg to announce during the coming year, specimens from the following eminent American artists: W. T. Richards, Grauville Perkins, James Smiley, F. O. C. Darley, Victor Nehlig, R. E. Piguet, Frank Beard, Paul Dixon, parison with the best foreign work, it being the de termination of the publishers that THE ALDIN shall be a successful vindication of American ta-

in competition with any existing publication in tile LITERIEN DEPARTMENT. Where so much attention is paid to illustration and get up of the work, too much dependence on appearance may very naturally be feared. To anticipate such misgivings, it is only necessary to state, that, the editorial management of THE ALDINE has been intrusted to Mr. RICHARD HENRY STODDARD, who has received assurances of assistance from a host of the most popular writers and poets
