The Vermont Farmer, in an arti-cle urging the necessity of attend. has changed, and ing to this important operation,

"Summer pruning does away with I have bought my entire Spring Stock of the necessity of staking and tying CLOTHING, BOOTS, SHOES, HATS and staking raspberries. It does more than this—it increases the at lat the very time to offer my mount of fruit, makes it of a better and I sincerely ask all persons in want of clothing to call and examine my stock, incling conflict that Size and flavor, and gives the canes I can sell cheaper than the cheapest. My Boots and a form and degree of hardness which offered to the market. The largest sun best stock of enable them better to resist the se. verity of Northern winters. With- ever offered for sale in this county. The styles out summer pruning, these small sold. fruits cannot be grown with profit or with with any degree of certainty of Ladies' Hose 12, 15, 20 and 25 cts. Corsets, the best

be checked in its upwardsgrowth when about two or two and a half pest in the finest brands of Cigars in town, feet high. The work may either be done by pinching or cutting. If the patch be large, a convenient method between the patch be large, a convenient method between the patch be large aconvenient method between the patch between th with a common corn knife, and the HOMEENTERPRISE. work can be done about as fast as a man can walk along the rows. The upward growth being thus checked, Choptank Nurseries, the side branches start out vigorously, and push out long and assume a drooping form. A new upward EADY to supply all demands for Trees, Plants, drooping form. A new upward growth will not usually begin again; One, two and three year old but in case it should, the cutting and pinching must be repeated. We should not check the growth of the side branches, unless they interfere carolina and Virginia, and by test, will keep in this with cultivation the first season, but | climate. shorten them early in the spring of their bearing year.

The Antwerps and their class and budded under my own inspection. Being grown from Natural Seed, guaranteed free from should also be summer pruned when | the greatest enemy of peach culture—the Jersey | Yellows. the shoots are about the same height. It is an object to promote the growth of side branches, as on these the most of the fruit will be borne .-Thus shortened, the canes will be stiff enough to support themselves in an upright position without the use of stakes.

Blackberries must be shortened in as above described, if the grower gets any profit or comfort in trying to produce this fruit. It produces the same effect as on the raspberries . viz.; causing the side shoots to grow with vigor, and these must be seve. ally shortened next spring. With this management, staking may be YARD AND SHADE TREES, extra entirely dispensed with, as indeed it is in plantations where these fruits EVERGREENS & ORNAMENTAL are cultivated on a large scale for market.

Too many new canes should not be allowed to grow in a hill. Three Blackberries, Raspberris, Gooseberries or four of the Black caps are suffici. ent; four or five of the Antwerps and this class, two or three of blackber. ries. If more appear they should be cut away.

## Plaster and Potatoes.

According to Mr. Compton, au- Public patronage solicited, and all thor of the prize essay in the cul.i. orders by letter guaranteed to receive vation of the potato, very remarkable results are obtained from plaster by dusting the vines with it as soon as they are through the soil; again immediately after the last plowing and hoeing, and at intervals through the whole growing season. The first application may be light,
the second heavier, and after that

THE GREAT REMEDY FOR

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, the complaint.

thus arresting Consumption and Bronchitis in the germ before they reach the more dangerous stages. The emaciated sufferer

BATTLING FOR LIFE with the most terrible scourge of our climate will find DR. GARVIN'S TAR REMEDY a potent ally, and will assuredly win the fight by adhering strictly to this balsamic medicine. By its VITAL-IZING, PURIFYING and STIMULATING effects upon the general system, it is remarkably efficacious Including Scrofula and Eruptions of the Skin, Dyspepsia, Diseases of the Liver and Kidneys, Heart Disease, and General Debility. The

CASES NOW ON RECORD in which it has been administered with entire suc cess as a remedy for every variety of maladies which affect the respiratory functions, amount to THOUSANDS at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all Expecterants introduced is that they are simply expulsory. Hence they are useless; for, unless the causes of the acrid secretions which are or materated surfaces healed and restored to their

natural tone, a cure is impossible. DR. GARVIN'S TAR REMEDIES, recomplish these objects. The mucus and mucoous which are the consequences of Lung Diseases, are thrown off by them, while at the same time they soothe and invigorate the weakened tissues. As catarrh, asthma, diseases of the heart, liver, stomorders of a pulmonary nature, they have never been Send for Circular of POSITIVE CURES to

color, with the gloss and freshness of youth. Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follieles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning grey or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only Greensboro', benefit but not harm it. If wanted merely for a HAIR DRESSING, Cardova, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy

lustre, and a grateful perfume. Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemiste, EOWELL, MASS.
