Be Critical in Your Examination of Our Clothes

ORIGINALITY, refinement of style, superior quality, workmanship, and reasonable price combine to give our garments a very high rank in the opinion of critical clothing judges. They are the things that are looked for first when good dressers examine clothes. And they are always to be found for use against the allied fleet. Guns cruiser Goeben cesses would be adopted immediately. in part: "No one of the former German cruiser Goeben cesses would be adopted immediately." in our garments. No matter what particular style, color, pattern or fabric have also been moved southward from the forts around Adrianople and from the Tchatalja forts.

GERMAN GUNS RAZE may be most pleasing to you, you can rest assured that it is included in our display. Never have we assembled a more complete or more varied stock. And never have we given such good values at these low prices-\$10 to \$25.

If You Have Money to Deposit We Want It. If You Want Money We Have It.

The resources of the Denton National Bank-Caroline County's first and strongest bank-grows all the time. We take pride in the fact that it has helped along so efficiently in the development which has marked business affairs in our county since its establishment, thirty four years ago. For years it has been on the honor roll of Maryland banks, and no financial institution in our State can offer better facilities than those afforded by the

Denton National Bank. Administrators, Executors, Trustees and all others with trust funds to handle and safely keep will find our Savings Department a place for prompt and very satisfactory investment, where the interest, FOUR PER CENT. compounded February 1st, May 1st,

August 1st and November 1st, is guaranteed. The public of this and adjacent counties can always find in this bank everything desired to further their interests in a business way.

not alone for the sake of the money which will thus accrue to their accounts, but principally because of the great moral effect which the lesson of economy always has upon the younger generation.

Do they realize the value of a dollar

and what its purchasing power really is? Show them by actual practice that it is false economy, for instance, to save money on food and other necessaries of life and then to spend that very saving in some useless luxury. Explain to them how the large sums will finally double themselves at compound interest, and above all don't forget to give them each a savings bank account.
