The Democratic National Committee has written the Jour-NAL requesting every reader of this paper if possible to send a contribution by check made payable to the "Woodrow Wilson Campaign Fund," care DENTON JOURNAL. These checks will be at once sent to National Treasurer Wells, whose lithograph receipt will be prized by every contributor, as showing material help extended in the great cause.

now by American taxpayers that will be lifted in the event of the election of a Democratic President and Democratic House is the cost of governing the Philippine Islands, which is being done against the desire of 95 per cent. of the Filipino people. Ten years ago Senator Hoar stated in the Senate that up to that time the cost had been \$600,000,ooo. Since then we have kept in those islands an average of 12,277 troops. cost the Government \$1,500 annually to maintain each soldier. The cost alone of maintaining the millitary forces in the Philippines last year was over \$26,ooo, ooo. It is safe to affirm that the sum which would be annually saved were the United States to relinquish sovereignty over the Philippine Islands, would not fall short of \$50,000,000. Democratic success means the divorcing of the islands and Republican success means their retention.

Two of the country's best debaters, Senator Rayner, of Maryland, and fermer Congressman W. Bourke Corkran, of New York, will engage in a public discussion at the Lyric Theatre, Balti more, on Monday night next. There will be no restrictions placed upon either speaker. The recall, tariff, State's rights and third term will be the subjects, and each speaker will have free rein to say what he thinks about the Colonel and his record.

If our protective system is not the "substantial" explanation of the abnormal increase in the cost of living in the United States, how does it come that British prices, under free trade, increased but 7.7 per cent in ten years, while American prices, under protection, in creased 34.3 per cent?

The New York Herald took straw votes in eleven States, and found Wilson ran ahead in nine of them, Roosevelt in two. The fight is between Wilson and Roosevelt and the straw-votes indicate about what the result will be as be tween them.

Fifth Congressional district Democrats are pretty sure to win the election his trust, honest in his work, fearless district includes a big black belt and has been generally held by the g. o. p. for years.

Do not neglect your part in the elec- of situations as they arose. tion of Governor Wilson.

Philanthropist Calls Taft and Roosevelt Protectors of Trusts.

One tremendous expense being borne TIME RIPE FOR CHANGE

Says No One Can Safely Challenge the Soundness of the Views or Leader ship of Wilson and Marshall, Who

Have Been Before the People. By JOHN D. CRIMMINS, [Noted Philanthropist and Irish Amer-

ican Leader.] At the outset of an argument in relation to the approaching election for prezident and vice president we must view what has caused the great uprising in the country in connection with our economic affairs and the administration of our government in so far as

as it relates to that subject. There is no defence offered for the extensive privileges created by the tariff preferences through the Republican party and the favors to the privileged classes and corporations. While wealth has accumulated under these preferences, a fair field and no favor has been denied to the masses. We cannot expect remedies from men high in office who in their entire life work have been associates and participants with the favored class. Mr. Roosevelt during his entire career in politics and as the head of his party has been the protector of many trusts that the tariff has nourished and fostered, nor have we found him in the seven and one-half years of his official life as president strenuous removing tariff iniquities and inequali ties. Mr. Taft in his acts and utterances is a party man, believing in a protective tariff, and would, if elected, defend what to many minds is the su-

preme cause of unrest. Free From Evil Associations. In Mr. Wilson and his associate, the candidate for vice president, we have two men who have had no associations with the privileged class, who have never been in a position to grant or accept favors or to participate in any measure that could possibly relate to their personal welfare or increase their incomes. In the respective professions that these two gentlemen have occupied they have been day laborers, working at their desks as many hours as the workman who is industrious

and faithful to his task. The very fact that they have been | First-Class Teams selected as candidates for the office of president and vice president of these United States is an illustration of one of the great boasts of the American people that the man who is faithful to and courageous in his opinions, will in time be noticed and receive a reward. CURIOUS BITS OF HISTORY

A CONGRESS ON WHEELS.

By A. W. MACY. The Continental congress which had charge of affairs during the Revolution had no fixed habitation. In September, 1774, and also in May, 1775, it met at Philadelphia. In December, 1776, came the first rumor of General Howe's approach. panic seized on congress, and it fled precipitately to Baltimore. Howe did not come, and i March, 1777, it ventured back to Philadelphia. In September it became alarmed again and fled, bag and baggage, to Lancaster, Pennsylvania. Pausing only long enough to take breath, it went on to York, in the same state. In July, 1778, it returned to Philadelphia, after the evacuation of the city by the British. It remained there several years, but in June, 1883, It went to Princeton, New Jersey. The following November it met at Annapolis, Maryland. The next year it met at Trenton, New Jersey, and in January, 1778, it went to New York City, where it remained till the adoption and ratification of the Constitution. Although it may be called a congress on wheels, in did some very effective work in the cause of freedom.
