THE COCAINE HABIT.
 The Worst Slavery Known - New Revelations of Power.
Cincinnati Times-Star.
 When cocaine was discovered the medical world exclaimed, "thank heaven!"
 Not useful as it is, it is also dangerous, especially when its use is perverted from the deadening of pain for surgical operations, to the stimulation and destruction of the human body. Its first effects are soothing and captivating, but the thrill is the most horrible slavery known to humanity.
 J. L. St... M. D., of Lebanon, O., was interviewed by our reporter yesterday at the Grand Hotel, and during the conversation the doctor said: "The cocaine habit is a thousand times worse than the morphine and opium habits, and you would be astonished," he said, "if you knew how frightfully the habit is increasing."
 "What are its effects?"
 "It is the worst constitution wrecker ever known. It ruins the liver and kidneys in half a year, and when this work is done, the strongest constitution soon succumbs."
 "Do you know of Dr. Underhill's case here in Cincinnati?"
 "That leading physician who became a victim of the cocaine habit? Yes. His case was a very sad one, but the habit can be cured. I have rescued many a man from a worse condition."
 "What, worse than Dr. Underhill's?"
 "Indeed sir, far so. Justin M. Hall, A. M., M. D., President of the State Board of Health of Iowa, and a famed practitioner, and Alexander Nelson, M. D., Professor of Surgery in the Columbus Medical College, and President of the Academy of Medicine, a man widely known here in Cincinnati, and who, in personal experience in opium eating, etc., can tell you of the kind of success our form of treatment wins, and so can H. C. Wilson, formerly of Cincinnati, who is now associated with me."
 "Would you mind letting our readers into the secret of your methods?"
 "Well, young man, you surely have a good deal of assurance to ask a man to give up his business away to the public, but I won't wholly desist until you. I have treated over 20,000 patients. In common with many eminent physicians, I, for years, made a close study of the effects of the habits on the system and the organs which they most severely attack. Dr. Hall, Dr. Neil and Mr. Wilson, whom I have mentioned, and hundreds of others, equally as expert, made many similar experiments on their own behalf. We each found that these drugs worked most destructively in the kidneys and liver; in fact, finally destroyed them. It was then apparent that no cure could be effected until these organs could be restored to health. We recently exhausted the entire range of medical science, experimenting with all known remedies for these organs, and as the result of these close investigations we have substantially agreed, though following different lines of inquiry, that the most reliable, scientific preparation, which we call Warner's safe cure, was the only one that would not divide to the public. Every case that we have treated first with Warner's safe cure, then with our own private treatment, and followed up again with Warner's safe cure for a few weeks, has been successful. These habits can't be cured without using it, because the habit is nourished and sustained in the liver and kidneys. The habit can be kept up in moderation, however, if free use be also made at the same time, of that great remedy."
 "Yes, it is a world famed and justly celebrated specific. Like many other physicians, I used to deride the claims made for it, but I know now for a fact that it is the world's greatest blessing, having sovereign power over hitherto incurable diseases of the kidneys and liver, and when I have said that, young man, I have said nearly everything, yet getting to the fact that there are but few acres of sensation in them, the subject will not experience much pain therein. On this account thousands of people die every year of kidney disease unknowingly. They have so called disorders of the head, of the heart and lungs and stomach, and least them in vain, for the real cause of their misery is deranged kidneys, and if they were restored to health the other disorders would soon disappear."
 "Dr. Stephen's experience, that can be confirmed by many thousands when he has treated, adds only more emphasis to the experience of many hundreds of thousands all over the world, that this remedy he refers to is without any doubt the most beneficent discovery ever given to humanity."
