The Home Comfort Range.

The War Papers and the Life of Lincoln in- Iron Range Company, of St. Louis, Mo., the salesmen of which Company are now creased its monthly edition by 100,000. The traveling in this county and exhibiting to the residents their ranges and displaying the atter history having recounted the events of superiority of the "Home Comfort" Range to the common cast stove. One of the ad-Lincoln's early years' and given the necessary | vanges that this range has over the cast range is that it is made from wrought and malleasurvey of the political condition of the coun- ble iron, not one ounce of east being in it, and, therefore, our readers can readily see try, reaches a new period, with which his that cannot be broken. It is so braced in its construction that a fire, no matter how secretaries were most intimately acquainted. | hot, cannot warp it. Another great advantage the "Home Comfort" has is that the smoke has seven feet to go before it can enter the pipe, thus allowing no heat to escape. A common thread cord tied around the stove pipe will remain there for months, and, in fact until it is taken off, for the pipe never gets hot enough to burn it. From these Dress-cloths, Kerseys, Flannels, Hosieries, Merino and Wolo very facts, it takes but one half of the fuel, generally required to run a stove to supply Underwear for children, ladies and gentlemen. Also Fine this range. The oven of this remarkable range is so constructed that when the door is closed the oven is rendered air-tight, and, therefore, none of the hot air escaping, things and coarse Shoes and a Large stock of Hats and Caps. placed there to cook must necessarily get done sooner than in a stove where the hot air following the "battle series" by distinguished is constantly going out and the cold going in. A tank is placed at the side of the generals, will describe interesting features of range which holds eighteen gallons of water and is heated immediately from the fire. | tionery. | Careful and polite attention paid, and all goods sold the last session of the legislature, providing for the appointment of the last session of the appointment of the legislature, providing for the appointment of the legislature, providing for the appointment of the legislature, army life, tunneling from Libby Prison, narratives of personal adventure, etc. General wood or coal can be used with the same results. The fixtures attending the range are four commissioners, who in turn elect | shifted from the lender to the bor- between the hours of 1 and 4 o'clock, p. | Sherman will write on "The Grand Strategy all made from steel or wrought iron and can be handled as roughly as desired without | higest prices. Very Respectfully, any damage to them. We cannot enumerate all the advantages of this range, but the most of you will be called on by the salesmen and then you will be enabled to judge for vourselves.
