A YANKEE VIEW OF A BRITISH POET.

Life Among These Tribes is but a Struggle for Existence.

Upon the whole, life among the northern Australians could hardly be desirable on any terms, and on their own it seems not acceptable.

Their religion is a fear, their existence a series of escapes from starvation and homicide, their morality a mere tribal obligation to the most elementary duties, their polity an ultimatum of the principle that might makes right within the tribe as well as without; a despotism of the strongest kind, tempered by cunning.

In the society of these children of nature certain persons skilled in devil-dance, they call the invocation of their supreme demon, and certain old men accomplished in endeavoring to their simple appetite for human flesh are the ruling influence.

They are all cannibals, as opportunity offers; and in default of enemies to eat they will sometimes eat their friends.
