

DENTON JOURNAL

1846. A Family Newspaper—Devoted to Local and General Intelligence, Agriculture and Advertising.—Independent on all Subjects.—Subscription, One Dollar per Annum, in Advance. 1891. VOL. 46. DENTON, MARYLAND: SATURDAY MORNING, OCTOBER 3, 1891. NO. 2.

1837. <1891. CHESTER RIVER STEAMBOAT CO. FREDERICK FOUNTAIN, Agent for R. J. BAKER & CO., MANUFACTURERS OF—

HIGH-GRADE FERTILIZERS, BALTIMORE, MARYLAND.

Special Fertilizers for particular crops are claiming general attention, as practical, experimental farmers and planters have demonstrated that Fertilizers for each crop are necessary to insure such returns as will pay them for their labor and care. We make a specialty of furnishing in quantities to suit purchasers every article used in fertilizing the soil. We will separate or will manipulate and mix to order, according to any formula which may be required. We were the first House in Baltimore who furnished this facility for obtaining either the United Chemicals or the Compounding of Special Formulas.

OUR SPECIAL WHEAT PHOSPHATE

We can confidently recommend as an excellent wheat producer. It has been used for years, and the general satisfaction it has given warrants us in making the statement. We have also constantly in stock our carefully prepared brands of Ammoniated Bone Superphosphates, Fine Ground Raw Bone, Pure Dissolved Raw Bone, Dissolved South Carolina Phosphate, Muriate Potash, Sulphate Potash, Kainit, and in fact everything farmers may want in the form of Fertilizers or Fertilizing Material, at Bottom Prices. Orders solicited. We do not publish certificates, our goods speak for themselves. Correspondence by mail promptly attended to.

FREDERICK FOUNTAIN, AGENT, Chestertown, Maryland.

MOROPHILLIPS' STANDARD FERTILIZERS

GUARANTEE GUANO, MANUFACTURED BY—

MORO PHILLIPS CHEMICAL CO. (FRED. PHILLIPS, PRESIDENT.) DEPOSITS—231 South St., Baltimore; 131 Third St., Philadelphia. Information cheerfully furnished. [6 7 4m]

"WE TAKE NOTICE"

R. C. GARRETT & CO., Fruit and Produce Commission Merchants. Butter, Eggs, Poultry, Live Stock, and all County Produce, 106 LITTLE DOCK ST., PHILADELPHIA.

FAVORITES. Fair, bright thoughts and fancies golden. Haint is Sally—due to the fact, probably, that one Salie Slate achieved great fame in this region years ago through her infernal arts. She was guilty of many ugly tricks before she turned old Caesar—her neighbor's hired man—into a horse and went foraging upon his brawny back. He was a strange negro from Georgia. He had never heard of Salie Slate.

How a Negro Got a Holiday. A favorite name of the Virginia White is Sally—due to the fact, probably, that one Salie Slate achieved great fame in this region years ago through her infernal arts. She was guilty of many ugly tricks before she turned old Caesar—her neighbor's hired man—into a horse and went foraging upon his brawny back. He was a strange negro from Georgia. He had never heard of Salie Slate.

HE WAS "UP" ON COIN DATES. Billie He Couldn't Stand Prosperity and Killed His Golden Goose. "I'll bet that I can tell the date on any quarter or half dollar which you can produce," said a man the other evening in a barroom not a thousand yards from the New York end of the Brooklyn bridge.

WHAT FOUR CENTS WON'T DO. Dismal Adventures of a Shopper Reduced to the Credit System. "Did you ever happen to find yourself thrown upon the cold world with only four cents in your pocket?" said a merry looking lady, one of a group on the piazza of a summer hotel.

HEALTHFUL RECREATIONS. A Strong Body is a Good Adjunct to a Strong Soul. We might make our homes a hundred-fold more attractive than they are. You will never keep your young away from outside shopping, and after taking my seat in the elevated it occurred to me to look into the state of my finances, when to my astonishment I discovered that I saw just four cents rattling around in a melancholy way in the bottom of my satchel—my purse was conspicuous by its absence.

THE FUTURE OF STORAGE BATTERIES. There are few electrical appliances that elicit such widely varying opinions from electricians as the storage battery. Some stoutly hold that for traction purposes the accumulator will never be reduced to a commercial basis, while others just as emphatically maintain that it will inevitably be the almost universal source of power for city electric lines. Be this as it may, the storage battery will unquestionably come into general use for lighting in the near future.

THE SPIRIT OF ENGLISH FOOTBALL. It is entertaining to listen to the observations of foreigners upon our national game of football. Here it seems as if our character was objectively epitomized. For a mere piece of leather to risk broken necks, heads and limbs in so reckless a manner! And yet it is recognized as our national sport, and a very direct descendant of the chivalrous craze of the Middle Ages. I doubt if any such descendant may still be said to exist.

WOMEN AND POCKETS. "Why do not women wear pockets? And why do they always carry every thing in their hand? Is their purse in their hand in such a manner as to tempt the dishonest? What an unworthy taunt is this! Woman does not wear pockets because man has left her nothing to put in them, and that is the reason. Another reason is because she does not want them. She is not as man is, and is not obliged to carry about with her everywhere a cigar case, a box of matches, a pocketbook, a latch key, and a dozen other futilities. For so many reasons, but none in her hand, she carries it there because she has not got a pocket.

THE MISSING INFORMATION. First Lady—Well, Emma, what is it you are looking for so anxiously in your cookery book? Second Lady (newly married)—Ach, my silly cook is stopping out so late, and my husband says he would like to eat some radishes—just I cannot find in the whole book any directions how to cook them!—Crescenzoer Anzeiger.

A Cheap Estimate. Gent—Hi, caddy! What'll you take us both for? Cabman—Only one mark. Gent—And myself alone? Cabman—The same one mark. Gent (to his wife)—There, old woman, you see how much you are valued at.—Humoristische Blätter.

THE LARGEST METER. Probably the largest meter that ever reached the surface of the earth lies on the plains of Neuman, in South America, where it fell. It measures 7 1/2 feet in length and weighs between four and fifteen tons. Perhaps the next largest is the one, well known to tourists, that lies at the foot of a lesser mountain of the Alps range.—New York Recorder.

AGENTS for Every Trade Made a Year Ago. Your copyrighted methods free to all. No Monthly Teachers and Ladies. No Monthly Teachers and Ladies. No Monthly Teachers and Ladies. No Monthly Teachers and Ladies.

FOR RENT.—Fine fruit farm, 100 acres, for year 1892. H. A. ROE, Denton, Md.

Use checks, money orders or registered letters in remitting subscriptions.

STORY OF A PIANO. A Genius Who Found Difficulty in Keeping a Vow to His Sweetheart. Probably the severest ordeal that genius can undergo is to be deprived of the exercise of its powers. M. de Pontmartin had a pathetic illustration of this in his acquaintance with one of the greatest pianists of the present century. He relates the strange story in "Les Souvenirs d'un Court Critique." Though not a player himself, M. de Pontmartin had a fine piano. One day the proprietor of the village hotel called to say that the evening before a gentleman, apparently a Hungarian or an Austrian, had arrived at his house, a person about M. Pontmartin's age, elegant of appearance and wearing an expression of touching melancholy.
