Never in all our business years have we known such times in the selling of our Good Clothing. Everybody wants it, almost. Certain it is that one busy day succeeds another. The unusual conditions through the death of one of our firm continue in force, and the lowering of prices is very great beyond what we ever expected.

The Very Low Prices are responsible for the Business The Very Low Prices are responsible for the Business

We believe this is a time of special advantage for buyers to lay in their clothes. In many instances, at the outlay of just half last year's money you are provided with dependable Clothing for which you have the guarantee of this house that quality is right. The imperative pressure to sell governs all our prices. It's impossible mostly to buy as low. It's impossible to buy lower, unless you waste your money for what isn't trustworthy. Bring back anything you buy from us, if you're dissapointed anyway.

Housekeeping Linens.

EVERY SUCCEEDING YEAR the business of our great Linen Department shows more

vitality and growth. We confidently anticipate an unusually large business this fall, for the reason that the superb stock now exhibited includes the very cream and pick of the principal linen marts and factories of the old world, and is an artistic exposition of more than usual merit, nearly all the designs being new and exclusive.

Our Buyer has had exceptional opportunities of purchasing at remarkably low figures, and the result of his work is seen in the immense collection of these goods now on exhibition.
