Hillsboro, Md., March 7th, 1903.

TO MY MANY PATRONS:

Having enlarged my building to one-third more its size, which now makes it one of the largest carriage repositories on the Peninsula, and having purchased EIGHT CARLOADS of Buggies, Wagons, Runabouts, Surreys, &c., I would invite you to look them over and get prices.

I think I can show you the largest, most stylish and most complete line there is to be seen on the Peninsula.

I have them in all the styles and grades you wish.

It will cost you nothing to look them over and satisfy yourself that it is the largest and best stock of Buggies you have ever seen or heard of, and it will certainly be a saving to you in time and money to inspect it.

Don't forget that I carry a full line of Harness of all grades.

Farm Implements I have by the carload: Binders, Mowers, Rakes, Harrows, Land Rollers, Fanning Mills, Riding Cultivators, Vulcan Plows, and many other tools.

A carload of Columbian Farm Wagons just unloaded, all sizes.

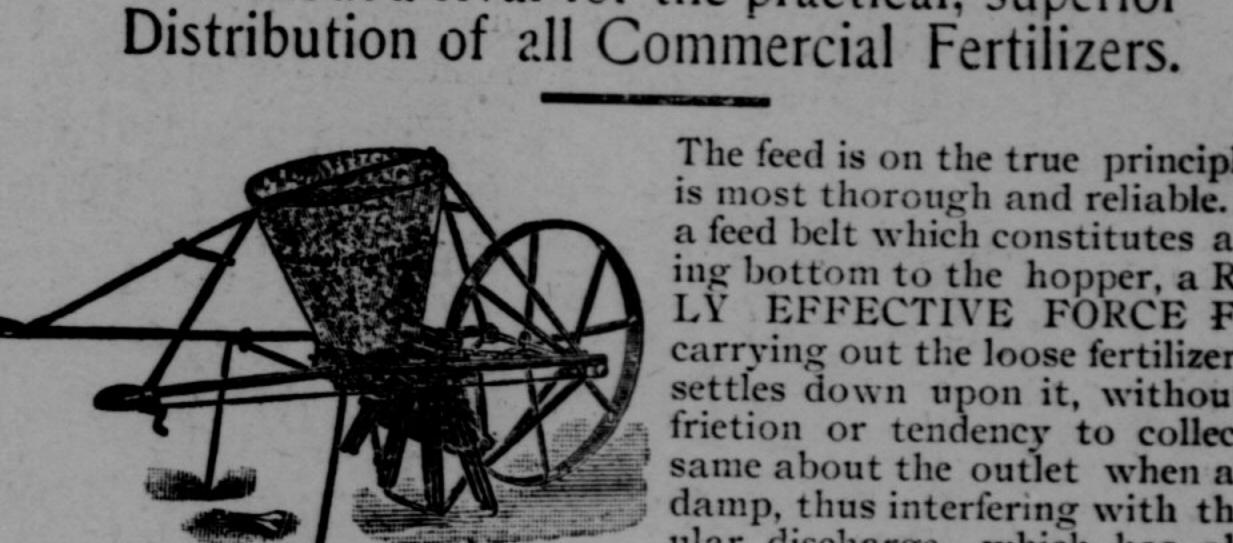

I ask your patronage. Prices are right and dealing square.

is without a rival for the practical, superior

The feed is on the true principle and is most thorough and reliable. It is a feed belt which constitutes a moving bottom to the hopper, a REAL-LY EFFECTIVE FORCE FEED, damp, thus interfering with the reg-

ular discharge, which has always been the trouble with Fertilizer Dis-Set for Side or Top Dressing 4 Rows at a time. tributers. To work successfully does not require that degree of dryness in the fertilizer necessary to all other Distributers we have ever seen. This machine is particularly adapted to the needs of the truck farmer and the market gardener. It is so arranged that the fertilizer can be applied in any manner that may be desired, as the operator has perfect control of the spread and division of the same, any change for that purpose requiring only a few seconds. It distributes the fertilizer in a furrow, beside the growing crop, as a top dresser or as a broadcaster to any extent up to a uniform spread of over two feet, without removing or adding any parts or loosening a bolt, and in any quantity

from a very few pounds up to forty or more pounds to the hundred yards of row. In the great trucking sec-

tion about Norfolk, Virginia, where this machine was first introduced lar use as the plow, it has practically excluded all others.

Top Dressing Strawberries. For this work it is the ideal thing, but to be appreciated it would have to be seen, as it makes a beautiful and uniform spread of the fertilizer on any row or bed of strawberries

Set as a Broadcaster 30 inches wide.

P.

Goldsboro, Md., February 28, 1902. Gentlemen—I take great pleasure in recommending your Improved Fertilizer Distributer to all fruit-growers and truckers. I have three of them J. A. DAVIS.

> Notice. ******** Having purchased the store of Mr. J. H.

Very Respectfully, Swinney & Co.

up to two and one-half feet in width The Distributer is light, yet rigid and strong, and easy and pleasant to use by man or boy. We could give hundreds of testimonials from those who have been using them for years, but have room only for one from a representative fruit-grower: McWhorter Mfg. Co. and find them almost indispensable. Send for circulars, or-better still-come and see the machine. J. H. and R. E. SMITH, Ridgely, Md.

Nichols, we are now ready for business. We propose to keep an up-to-date stock of General Merchandise and conduct the business on the right principles. We hope for a continuance of the liberal share of patronage always extended this store, by deserving it.
