JOHN L. EVERNGAM, DENTON, MD.

# PARTNERSHIP DISSOLUTION

# those of any time within our recollection, and sales are being made at more enhas introduced a bill to pension Mr. Ed Belgate Phillips, of Queen Anne's, her hand, and the fever left her, and she was cured. The story goes on to say morning by postoffice detectives, charged with robbing the mails. EVERYTHING IN STOCK Cut 20 to 25 per cent.

Messrs. H. Clinton and Winfield R. Wright, Carter Block, Denton, § will in a few days dissolve partnership and they wish us to announce that FOR THIRTY DAYS they will sell all lines of their stock at a reduction \ of from TWENTY to TWENTY-FIVE PER CENT. The shopper will be able to make a very substantial saving in any Department.

#### THE DRESS GOODS DEPARTMENT

includes some of the best materials. There are many thousands of dollars worth of them, and every article of clothing and wear needed is there found. There are materials now going at prices that cannot be duplicated anywhere, in county or city. Ladies' Coats and Suits are included in this sale.

IN SHOES, THE CUT IN PRICES IS JUST AS SWEEPING as in other things. There is about a \$4,000 stock of Shoes for Ladies, Men and Children. It is very rare that you have been able to buy shoes of the highest grade at the present figures.

### OVERCOATS, HATS, NOTIONS, GROCERIES

There are Men's, Boys' and Children's Coats and Overcoats in variety--and here, too, the cut will be deep, so deep that you will be more than pleased. The Notion Department is full and complete; the prices are all down there, also. The stock of Men's Hats is fine, and stylish, but the hats must go, at the sacrifice decided upon. Even Groceries are to be sacrificed; they will be sold at lower figures than can be found in town or city.

### THESE PRICES ARE FOR CASH

The reductions will range from 20 to 25 per cent., and there are \$12,000 \{ worth of first-class goods to be disposed of. Go and get some of them. Go at once. It will be a Reduction Sale That Really Reduces all lines--everything. There will not in all probability be another such opportunity to buy new, first-class goods at such prices for years to come.
