THE investment value of a good appearance is a thing that no man can afford to overlook. A philosopher has told us that of most vital importance in making one's way

in the world is our raiment. And there are some things a man cannot afford to forget when he sets out to invest in a new autumn suit. First, he should consider the place which really stands for clothing that is an investment, as against clothing that must be looked at in the light of expenditure. The Schloss Clothing, which we sell, is the kind one can safely put

his money in. It is the high-grade material and high-grade workmanship at a much lower price than the average. One man bought here a Schloss suit for \$18 which was so substantial in fabric, so well made, that at the end of the third season it still had the distinct appearance of a high-priced, tailor-made suit. There are instances---many of them---of the durability and distinctiveness of the Schloss Clothing. The people are finding out more and more of the strong points of this clothing, and the demand for it grows all the time. Our store has the best stock of this clothing ever provided---the biggest stock ever received here. We are very sure of the three things essential: This Clothing is RIGHT in STYLE, QUALITY and PRICE. We want all the Men, Young Men and Boys to see the New Stock of the Fall of 1911.

## Changing Weather Means Changing Footwear

And we are ready for every demand in footwear. We have a great stock of Shoes for Ladies, Men, Boys and Girls. This stock includes the Selby Shoes for Ladies—a line with especially good and desirable features; and Bion and Crossett Shoes for Men. In making ready for the damper, cooler days now very close at hand you could not spend a more profitable hour than outfitting yourself and family in our Shoe Department, which supplies many hundreds with their footwear.

is an interesting and useful department of our establishment now and in this season's stock are all the attractive shades, all the pleasing fabrics—in LADIES' and MISSES' SUITS. Here, too, are the Long Black Coats, Blues, and Fancy Coats-all now on display—and our prices are the lowest.

There are many things pertaining to the Opening of the Autumn Season, such as UNDER-WEAR, SWEATERS, DRESS GOODS in great variety and of especially fine fabric and attractiveness, including SILKS—in fact, all Fall Goods now open are worth your while to see.

Highest cash price paid for produce at all times.

## Practical Talks On Fertilizers. Number Eight.

Attempts have been made to feed soldiers on tablets that contained the required nutriment—by analysis. But it hasn't worked--the human body can only be kept well and vigorous

Analysis shows that an acre of land with soil a foot thick contains a value of one thousand dollars in productiveness. But Man must co-operate with Nature to get results. We must use fertilizers that give the land its needs in the form that helps Nature.

He did not merely say that he would appoint good men to the offices which he would be required to fill, but specified what kind of men he would appoint, which means that none but the best can expect preference at his hands. Mr. Gorman also proclaims himself a convert to the policy of state-wide direct primaries wherein all executive officers, not excluding.
