The Old Country Store

We all ike to talk about bility should be assumed by Queenstown, Md. Phone 2701. the "good old days," but how many of us would turn the clock back if we could? Probably no better illustration of the "good old days" could be cited than the country grocery store. One could patronize such a store year after year and find the cracker barrel, the pickles, and the wheel of cheese in the same place. The old store exuded an aroma of salt meat, bananas, apples and other delicacies that one never forgot.

The lack of change gave it an air of permanence and made it seem like an old friend. But today no one would buy crackers that had to be handled by a clerk. You wouldn't buy cheese where flies were walking over the cloth that covered it-neither would you accept wormy apples. You want to pick your vegetables from under a spray of water or out of a frozen food chest. Instead of buying fruit in season, you want almost every kind of fruit or fruit juice at all sea sens. You wouldn't think of getting your milk or meat except from refrigerated counters. You wouldn't want your potatoes or other heavy vegetables setting on the floor in boxes or sacks where old Rover could nose along enjoying himself. That is one reason why your cost of living has gone up-the spread in price between the farmer and the consumer is in large measure the result of the demand of the consumer for expensively processed products. So when you talk about prices today and compare the cost of living with that of a generation ago, just remember all you are getting-fancy packages, refrigeration, air conditioning, sanitation and

The "good old days" are nice to talk about, especially when you want to complain but you would let a "good | old store" starve to death for lack of patronage.

scores of things your grand-

mother never heard of.

Aid for the Indigent

The American Medal Association has long been a whipping boy of those who want socialized medicne, or government-bossed medcine. or some variant thereof. The that this organization, which represents the vast majority of the country's physicians, is opposed to better medical care, and isn't at all concern ed with the problems of indigent people.

Nothing could be farther from the truth. The AMA has been directly and indirec tly responsible for some of the great medical advances of all times. It has thrown movement, and has been a positive factor in that movement's extraordinary

growth. What the AMA does oppose are schemes which would inevitably reduce the standards of medical care
