Wages in the clothing industry are two hundred to two hundred and fifty per cent high. 351. Seriffet er than they were prior to the war. The sweeping advance is called to attention as typifying conditions regarding labor costs generally, so that we may realize how unlikely is any read. justment to a point where it will affect the cost of living. from Centreville, in a beautiful and healthy location. The buildextent, but the reductions do | laid out afford ample space t not seem to have affected the retailer in a marked way, says

the Caroline Sun. Often it is said the capacity | particulars apply to or address of American manufacturing THE MOTHER SUPERIOR, industries has developed beyond our power of absorption and St. Gertrede's Acedemy, Ridgely, P.O., Md. that we must have exports to take care of our surplus. The fact is that we can consume everything labor can produce in this country, and much more if products are manufactured in correct proportions and are valued to each other in right relations. The problem is one of properly adjusting exchanges Our chief difficulty is the high level of manufactured goods as against prices for the products of the farms. This is the problem to which our economists and politicians need most to ad dress themselves. Once solved we need have no need to worry over our lack of export markets The answer is not a lowering the wage, but a readjustment of values with a realization that wheat and corn are of more moment than pink or blue silk pantalettes.

Careless campers who leave their fires burning in the woods or tess lighted cigar and cigarette stubs into the bush, burned last season more timberland than was cut by all the saw mills in the country all year. Reforestation has been recog nized for years as one of the greet necessities. Something is being accomplished in this direction. But forest fires at present wip out much mo.e timber every year than is being

Records kept by the forest service show that every year the area of forest land swept ty fire is about twice as great as the area cut over by logging operations. Four fifths of the fires each year are man made. They might be prevented by the exercise of ordinary care. Most of them start from hot coals left by campers or picnickers or from lighted cigarette butts, and some of them come through carelessness of sentlers in burning up stump piles an brush heap :.

The burned over acreage I rgely cut over land, which re duces the monetary loss, ba the prential destruction inevertheless terrific, for the fires on the cut over acrease destroy the seeds and you growth that would reforest the

The forestry service says the first important step in referest ation is to start the growth on the cut over land, and on much of this land "effective protec tion against fire will be all that is necessary for this purpose."

A Frenchman has established a new record in driving an automobile a mile in less than 26 seconds. This is at the rate of approximately 140 miles an hour, though it would be im possible doubtless to retain such speed for any considerable length of time. While the record was made on a race track especially prepared for bursts of speed, it shows what it is pos. sible to do with such mechanical applicances. That would not be fast going for an air plane, but the conditions under which the two operate are quite in contrast. In this age speed and then more speed is the goal sought. The real test of an automobile in practical

## Now Is The Time!

You who have been promising yourself a Ford car, saying it was "only a question of time"should buy NOW!

The time was never so favorable, because a Ford will get you out-of-doors more hours every day this summer. The quality never quite so good (even by Ford standards) and the price is the lowest in the world for such values.

Ford Motor Company

Runabout \$265 Coupe \$525 Tuder Sedan \$590 Forder Sedan \$686 SEE THE HEAREST AUTHORIZED FORD DEALER

You can buy any model by making a small down-payment and arranging easy terms for the balance. Or you can buy on the Ford Weekly Purchase Plan. The Ford dealer in your neighborhood will gladly explain both plans in detail

## Looking Ahead

LAST Spring a total of 350,000 people were disappointed in not being able to obtain deliveries of Ford Cars and Trucks, as orders were placed faster than cars could be produced. The demand for Ford Cars and Trucks this Spring will, according to all indications, be far greater than last Spring. Winter buying has been increasing at a greater rate than ever

Actual retail deliveries the past 60 days totaled 308,170 Ford Cars and Trucks, an increase of 1,961 a day over a year ago.

Over 200,000 people have already ordered Ford products on our purchase plan, the majority of whom will take delivery in the Spring. The above facts are given with the suggestion that you list your order promptly with a Ford dealer if you contemplate the purchase of a Ford Car or Truck for use this Spring or Summer and

wish to evoid delay in delivery. Fored Motor Company,
Detroit, Michigan

You need not pay cash for your car. You can arrange to make a small deposit down, taking care of the balance in easy payments. Or, you can buy on the Ford Weekly Purchase Plan. This puts you on the preferred order list and insures delivery of your car at a time to be determined by yourself.
