Saturday, May 20, 1933

President Roosevelt, in his radio address last Sunday night. teld the American people that "we cannot ballyhoo ourselves back to prosperty." The country has long ago convinced itself of the truth of this statement. The purpose of the President's ta'k was to give information. It was therefore, hearting when he stated that "Industry has picked up; railroads are carrying more freight

farm prices are better." This statement was in keeping with newspaper reports of improv ing industrial conditions. Highly encouraging information concerning better conditions with several of our local establishments, for example, indicate plainly definite revival in the industries with which they are connected.

And, scanning current papers we read more encouraging news from all parts of the country. Long deferred replacement demand for motor cars continues to swell retail sales volume," read a Detroit dispatch to the Wall Street Journal. From Richmond came this: "The improved agricultural outlook finds farmer purchasing more fertilizer, especially for tobacco crops, than has been the case in many years."

From Chicago comes the information that offal leather prices have gene up 40 to 50 per cent above the year's ow, while a Boston dispatch states that "sole leather prices have been put up a cent a pound by leading tanners within 48 hours.

Manufactuing plants are expan ding their operations and payrolls More men and women are being put to work. More money is going out to the consuming public. The purchasing power of the peo-

ple is being increased. And so it loes. Industry, including agriculture, appears to have taken new heart. It has rea son to. The improvement thanks noticed obviously is substantia although it is coming al dually. That, it

bolst country have good inco comes which are as large of larger than ever, when the increased buying power of the dollar is con

and they can afford to spend i for necessities for themselves. But fear, inertia, uncertainty prevent them from investing it where it can do good-where, in brief, a dollar can accomplish ne cessary work.

sidered. They have cash on hand,

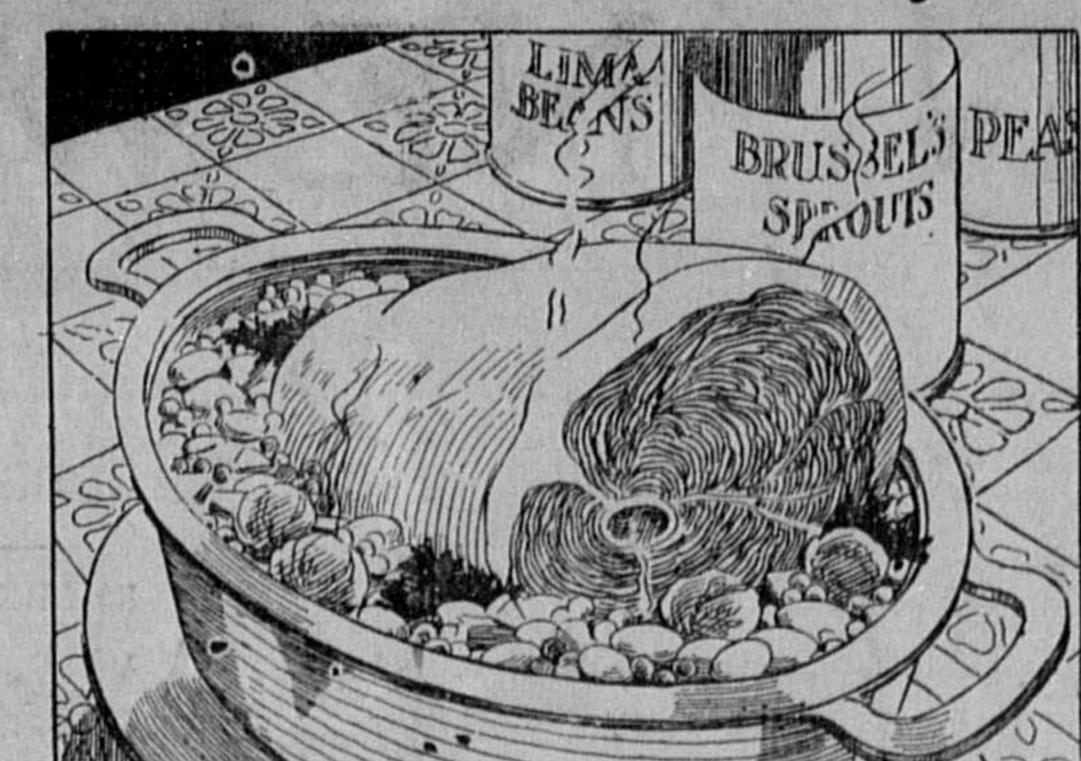

There will be fear, inertia and uncertainty in this country until something is done to provide employment, to create demand for the products of farms and industries, to step-up the general pur chasing power, to start slacker dollars rolling.

One of the best ways to make dollars useful is to spend them for property improvement -- to pain the house, put in new furnace, in stall some needed electric wirin, or applia ce, replace sagging four dations or tottering chimneys, beautify the grounds, repair or re place the roof or the steps, and

When such things are done dollars start rolling in an unending circle—they go into a hundred pay envelopes, touch a hundred different businesses and industries.

You can make needed repairs and build now cheaper than ever. You can secure improvements at rock-bottom prices you may never see again. And while you are benefiting yourself in this manner ou are likewise doing your bit to monstrate that regular jobs for rs are better and cheaper harity, and that without

#### . What's Your Hurry?

TV/E'VE learned a lot of things | There's that dish called "slum-In the past year or so. gullion," for instance. It sounds with leisure because it was forced | so far as we know-devised and it's sort of foolish to fall out of and eat good things. It's fun to bed, duck under the shower, hurry | cook-and glorious to eat. down a two-minute breakfast, cooking only foods that took "just gredients added: one can of lima foods are such time-savers we sprouts, a little onion that has have been apt to think of them been chopped fine, and twenty only as such, and we haven't half minutes before it is done, add

And we've discovered that added to by men who like to cook

Here's Larry's Slumgullion: learned the interesting things one three cups of fresh corn that has can do with these same foods been cut from the cob, or a large when one has lots of time to play can of whole kernel corn. Eat around with them in the kitchen? and be glad.

15 shots Quick as a wink! This little Stevens sure throws em straight and hard, whether you're sighting on a scurrying red squirrel or into a bull's-eye. And notice how smooth and easy she pumps! 15 shots, snappy as a trip-hammer. You can't beat the I Visible Loading for dead-eye because the barrel's every Stevens barrelis a smooth that the final tally amoves less than 1 1000 I min 'n. That slow, painstaking that I was an accuracy that lasts.

THE slight cost of a telephone over a period of years is often saved by a single call. No home knews when fire or illness may strike. But every home with a telephone is prepared for any emergency.
