But as the internal revenues and direct year 1814. The sum, therefore, estimated as tax, when in full operation, will produce, in the year 1815, probably \$1,200,000 \$6,600,000 more than is estimated to be received from them in the year 1614, it will rest with Congress to decide whether it is 1.: cossary that new and additional reveaues should be established. To what extent the existing embargo may reduce the receipts into the Treasury from the customs during the year 1814, it is difficult to estimate, as the operation of the 3,650,000 war had reduced the receipts from the customs nearly one half from that which 1,070,000 was received during the year preceding the war. The former embargo reduced the revenue from the customs nearly one half the amount of that which was received during the year preceding its full operation. In this case, however, the transition was from the full receipt of a peace retonue, to the entire suspension of exportation and of foreign commerce in American bottoms.
