A Distinguished Clergyman's Testi-Rev R M Pickens, President of the Methodis Protestant Church of South Carolina, writes from Greenville:

"About tour years ago I was attacked with what the physicians pronounced one five and the other pains were movable, and would sometimes pass from one part of my body to another. Finally the crysipelas broke out on my left hand and arm, and produced much swelling. I was for eighteen months afflicted in this way, and of course used a great many kinds of medicines, but nothing gave me relief. Friends finally persuaded me to try Switt's Specific I noticed a decided improvement while taking the first bottle. I continued its use until I had taken about any december bottles, when I found myself one dozen bottles, when I found myself sound and well again, with no sign of disease left except a stiffness in my hand, a result of the erysipelas. While taking the medicine I gained on an average two pounds of flesh per week. I think S S S. a valuable medicine, and I frequently recommend it to my friends."
