It is posstock of the house has to be con- the home of the giver. stantly moving. Things wear out, Bell Syndicate.—WNU Service. and replenishing is a necessity.

Frequently more articles come in High-Waisted Frock to a house than go out at such times. Too often homemakers defer ridding houses of unused things. And, if the materials accumulate and the articles with which you are through, are not diverted into other channels of use, or disposed of, the house gets clogged much as a drain does when the pipes get stopped. Every homemaker has had reason at one time or another to have the disturbing matter of clogged pipes to deal with. An outlet for the water is imperative. The smooth running of a house is impeded when outlets for unused furnishings, garments, etc., are not made.

Replenishing the Wardrobe. There are times when a new piece of furniture fits into a place in a house, a place that has been waiting for it until money permitted of the purchase, or until just the wanted plece could be found. There are times when new clothing adds to a wardrobe without being a substitution for outworn articles. There are times when household linens are increased in number and kinds without indicating anything but a previous lack. Elimination does not figure in such instances. Increase and enlargement are fortunate features.

Replenishing the wardrobe for spring and summer, should also signify clearing out those articles for which the new ones are substitutes. Unless the garments are not worth further wear, your elimination of them can mean additions to some other wardrobes. While recipients naturally are grateful for the needed things, there should be a certain sense of gratitude on the part of the

1,680 LOSE LIVES DURING YEAR AT GRADE CROSSINGS

Despite the efforts of the railroads and safety organizations to impress upon the public the necessity for for daughter and see yourself as greater precaution in passing over highway-railroad grade crossings, more persons lost their lives in 1935 in accidents at highway grade crossings than in any year since 1931, ac bit of a bodice which makes it very cording to complete reports for the year made public by the safety sec- tern new and in the meantime take tion of the Association of American

Railroads. These reports showed that in 1935 1,680 persons were killed at high- velvet ribbo: for the trimming. way-railroad grade crossings. In Barbara Bell Pattern No. 1852-B 1934 fatalities from such accidents is available in sizes 2, 4, 6 and 8 totaled 1,554; in 1933, 1,511; in 1932, 1,525, in 1931, 1811. Persons injured in such accidents

in 1935 totaled 4,658 or an increase of 358 compared with the preceding Accidents at highway-railroad crossings in 1935 totaled 3,933 com-

pared with 3,728 in 1934. For December fatalities from grade-crossing accidents totaled 220, or an increase of 43 above December, 1934, while injured totaled 606, compared with 525 in the same month the preceding year. Reports showed
