LOCAL MATTERS.

WEDNESDAY, April 12, 1871.

Our friends throughout the county are continuing to furnish us with all items of local interest, transpiring in their immediate neighborhoods.

CORONER'S INQUIRY.—On the 29th ult., the body of a man was found floating in the waters of the Choptank, near Cambridge, and brought to the wharf. Justice Winterbottom promptly pronounced a jury of inquest who found a verdict of "accidental drowning, causes unknown." The corpse is supposed to be that of Josiah Hitchins of the upper part of the county who was lost from the schooner J. A. Dixon, Capt. Carrasco commanding about four weeks ago. For the information of his family and friends, we state further that the remains of the unfortunate man were decently interred in the old Methodist Church yard of this town.

JAMES M. THOMPSON.—A member of the Board of County Commissioners and one of our most prominent citizens, slipped upon the sidewalk in Vienna on Monday the 27th ult., and broke his thigh bone. Was regretfully informed that a fracture of the principal bone, and several months time will be required to heal it perfectly.

RECEIVED.—In the House of Representatives on Wednesday the 3rd inst., Gen. Biddle charged the Hon. Thomas Swann of Md., with having belonged to the association of Know-Nothingism. Mr. Swann repudiated that he as it might be.

According to the Paris newspaper, however, the rebellion has already been suppressed by the French troops under Gen. Lallemand.

PAINTER'S ACCIDENT.—Mr. Francis Gill son of Wm. B. Gill Esq., while gunning last week, received a severe wound in the side, by the accidental discharge of a gun. It was at first feared that the man would be lost. Dr. Gill is now in a fair way to recover.

SALE OF A VALUABLE FARM.—Rufus Johnson, Esq., purchased of Mr. Hugh Main, the fine farm of the latter, situated at the junction of the Neck & Castle Haven roads, and containing 350 acres for the sum of \$8,000.

FATAL ACCIDENT.—Joseph C. Dodson, south about 13 years of age, was killed on Eastern Friday March 31st, by the accidental discharge of a gun in the hands of a mate.

The Hon. Thomas Swann will please accept our thanks for valuable public sentiments.

We have received a copy of "The New-Hampshire," exhibiting the use and vice of our late neighbor of Senator Berard. We wish him success in his new home in the far

THE U. S. COAST SURVEY SCHOONER "Hasler."—Is off our harbor. She has been engaged in Hydrographic Survey of Cambridge Creek and the Choptank River.

PENING THE WHOLE QUESTION.—A paper was amused the other day to see this bit of "argument" from her boy: "Mamma, I don't see how you could have turned out to be such a fellow—there wasn't any devil but him up to it!"

ASTROSCOPIC PHOTOGRAPHS.—We have had from Messrs. L. H. Rogers, New York, and G. L. Aspinwall, of 61 William Street, New York, scope photographs of the London and "Harker's Weekly," neither much larger than four inches square.

That of the Times contains, ad. 50,000, words which are of little value to the naked eye, but can easily be read through an ordinary magnifying glass. It was by means of these minute photographs that intelligence was conveyed from London during the war, by carrier pigeons. Copies of either the London or Harper's Weekly may be obtained by addressing the publishers' office.

EDWARD COATS.—Is the title of a weekly journal, edited by Edward Coats, devoted to the Free Discussion of Social and Living Questions in Life, Society, Literature, and Moral Reform. Published on Wednesday in New York. Price one dollar a year, Cash in Advance.

Timon, having retired from The President and The Golden Age, perhaps to subscribe should send him with the money, immediately to Theodore Tilton, P. O. Box 100, New York City.

CORN PROSPECTS.—There are fine crop prospects in the south and west. Corn and cotton planting have commenced under favorable auspices.

In Delaware a large crop of peaches is expected; in Georgia wheat, oats, rye and corn look well; in Louisiana rain has somewhat interfered with operations, while in Maryland and Kentucky wheat looks very promising.

If San Domingo is annexed, its tobacco will enter the country free. Viewing the matter in this light, Connecticut tobacco-growers must look with peculiar complacency upon Grant's determined effort to force the San Domingo swindle upon the people.

CRONIN'S AGE.—Is the title of a weekly journal, edited by Cronin, devoted to the Free Discussion of Social and Living Questions in Life, Society, Literature, and Moral Reform. Published on Wednesday in New York. Price one dollar a year, Cash in Advance.

Timon, having retired from The President and The Golden Age, perhaps to subscribe should send him with the money, immediately to Theodore Tilton, P. O. Box 100, New York City.

THE RULE.—Four years ago, in consequence of the iniquitous laws of a small state, the state of San Domingo, the tobacco-growers of that nation, stimulated by the lately entranced, All the political power of

ing thus vested in those who were most ignorant, most proertyless, and least capable, have met with the sole neglect to judge by the results, the people, and whereas in the year 1863, that unhappy nation had a total of little over \$20,000,000. What

the expected when by way of the character of its rulers it is

of the entire Legislature, and the members but 13 can read and write

for Carolina, and also for Maryland

is the hour of danger we do not

know together!

preliminary report of the United

Confederacy given to the press.

NEWS GENERALLY.

Mutilated Currency.—A Test Case Decided by the United States Treasurer.

A Tennessee Postmaster has enclosed to the United States Treasurer a slip from a recent North Carolina paper, setting forth that the Postmaster at Hillsboro, North Carolina, has been fined \$2.90 for refusing to receive mutilated currency in payment for postage stamps, and says that since the appearance of this article in print his office has been flooded with mutilated currency, and he desires to know whether he is compelled to take or may refuse the money so presented.

Treasurer Spinner replies, stating that the rules of the treasury department Postmasters are authorized to receive such currency for its full value in payment for postage stamps, even in cases of United States notes, when not more than one-twentieth of the note is missing, and in cases of fractional currency when not more than one-tenth is missing. When such notes are mutilated currency are not paid, and the standard referred to, no one is compelled to receive them for any part of their value, and the only place where such notes may be redeemed is at the United States Treasury.

The Chicago people are agitating the project of constructing a ship canal from Georgian Bay to Lake Ontario. The length of the canal would be forty miles, and it would give Chicago water communication with the Atlantic by way of the St. Lawrence, shortening the route to the seaboard some 300 or 400 miles. The charter of the company formed to prosecute the work expires this month; but there will be no difficulty in getting it renewed, and it is stated that a grant of ten-million acres of land can be obtained from the Dominion Government in aid of the undertaking. A committee has been appointed to visit Ottawa for the purpose of securing legislation by the Dominion Parliament in favor of the scheme.

THE REVOLT IN ALGIERS.—The rebellion against the French authority which has had a fatal existence since the early stages of the existing government of France, appears to be growing in importance. The Arab chief Sidi is reported marching on the city of Algiers with forty thousand troops, and there is as much disaffection among the French troops there as in France, the followers of Malherbe have their opportunity at hand to recover their country and realize the object so long contended for by the famous Al-Kader.

According to the Paris newspaper, however, the rebellion has already been suppressed by the French troops under Gen. Lallemand.

A PRIZE FIGHT STOPPED BY A WOMAN.—The Lyons (Iowa) Mirror relates that a prize fight was projected by Hammoners, a little while ago; between two boys of twelve. The ground was staked off a crowd gathered; respectable in numbers, and eminently so in character.

But, in the nick of time, the mother of one of the boys appeared, and asked what was up. A ring-leader replied, in a very ungracious manner and instantly received a sense on the side of his head from a mop with which the good dame had armed herself, and then made for two or three others of the party. Whereupon every valiant fighter and spectator fled terrified.

TO THE LADIES.—A circular for married or single ladies, containing desirable information upon matters never before made public, mailed free. Those who wish to give it a careful perusal may address,

Mrs. ELIZABETH A. KING,

Mb. 2, 1871-3m Williamsburg, N. Y.

To Consumers.

The advertiser, having been permanently cured of that dread disease, Consumption, by a simple remedy, is anxious to make known to his fellow sufferers the means of cure. To all who desire it, he will furnish a copy of his prescription, free of charge, with directions for preparing and using the same, which they will find a **SURE CURE FOR CONSUMPTION, ASTHMA, BRONCHITIS, &c.**

Parties wishing the prescription will please address,

Rev. EDWARD A. WILSON,
