One Name. Upon the silver shining sand. A maiden wrote, with loving hand, One name-no more. The waves crept up with steady aim. And washed away the little name,

Far from the shore.

Then, with a pen of finer art, She wrote again deep in her heart But fear, and doubt, and wounded pride Soon drowned within the crimson tide The word she bore.

"Yet," said the maid, "through grief and pain Still I write on my living brain One name—no more." But want, and care, and added years, Buried in depths of bitter tears The sign she wore. Then cried the maid in wild despair, "Is there no safe place anywhere, By sea or shore, In brain or heart?" The answer came, God keepeth safe thy true love's name

Forevermore.

## Farm, Garden and Household.

CRACKED HEELS, OR GREASE. - This complaint, when neglected, becomes very troublesome. Filth is its chief cause. and without the cause being removed average salary at \$700. it is impossible to cure it. In some cases the leg is swollen to the knee, and discharges offensive matter from suppurating cracks, which are open at every movement of the horse's foot. No care ful horse-man, however, would permit his beast to become afflicted to this degree, for early treatment brings about a speedy and easy cure. Carbolic soap and warm water, applied three times a day, and a little glycerine to protect the cleansed surface from exposure to the States together have almost one-third of air, will effect a cure. This unsightly the cities in the United States. disease should not be permitted to exist eradicate it. We can not imagine a man between Disraeli and Gladstone. of proper self-respect allowing himself to be seen in public driving a horse suffering from it. -Hearth and Home.

HINTS TO HORSEMEN AND FARMERS .-Wash the beasts and all places on your horses and working cattle with a strong decoction of white-oak bark boiled down for five days. very strong. Wash a few times where the barness comes, and it will toughen the skin and prevent galls. If the harness wears the hair from your horse, have the harness properly and thoroughly soaped and cleaned, and then oiled with neat's-foot oil blackened with two Viscount Enfield denied that negotiations tablespoonfuls of ivory-black to a quart | were pending with the United States for of oil. After the oil has been on a few the abolition of privateering. hours, take sponge, soap, and water. New lodges of Knights of Pythias are and wash off the surplus oil, and your established in Massachusetts at the rate sweet oil on patent-leather pads and fifty- three lodges in that State blinders. Give your horses a warm every Saturday night, except when green grass is fed. Clean out the gravel stones refusing to register them as voters. and dirt from the shoes every night with a stable hook, made of black round iron, six inches long. The hook needs to be bent only half round. Stuff the horses forefeet with cow manure, clay, and salt twice a week in dry weather. Have him shod monthly by the best of farriers, although you drive ten miles to ranoocy Eng., a woman having been find him. Discharge any man who has no judgment and fidelity in the care and use of a horse. Carriage tops. - Use oil extracted from the entrails and cooking of fowls, and add a little ivory-black. It is better than neat's foot or other oil, and an occasional application will keep your carriage-cover in perfect order. Soap in warm weather, and sperm-oil in cold weather, and wipe surplus from axles and nuts clean before and after using."

HINTS FOR THE SEASON, - Weeds in Pastures and Fence Corners should not on any account be suffered to go to seed. Let them be moved at once.

Stubble Land, especially after barley, is often full of weeds; a moving machine may be used with advantage to cut them. Also, in pastures where thistles and other weeds are abundant, a mowing machine affords an easy method of checking or destroying them.

Mulch Cows are apt to fall off rapidly in their milk this month, and that dairyman is fortunate, or, more correctly executed a few weeks ago at Nankin by ing in the water in some convenient speaking, prudent and enterprising, who being "cut into 10,000 pieces," which place to handle them. ALMOST EVERY CASE CURED WITH

Read the following letter from Rev. R. Telford, Mis-Messra. Perry Davis & Son, Providence, R. I. Dear Sirs: During a residence of some ten years as a Mission-ary in Siam and China, I found your Vegetable Pain Killer a most valuable remedy for that fearful scourge— In administering the medicine I found it most effectual to give a teaspoonful of Pain Killer in a gill of hot water sweetened with sugar; then after about fifteen minutes, begin to give a tablespoonful of the same mixture every minute until relief was obtained. Apply hot application to the extremities. Bathe the stomach with Pain Killer clear, and rub the limbs briskly. Of those who had the cholera and took the medicine faithfully in the way stated above, eight out of ten recovered. Truly yours, R. TELFORD.

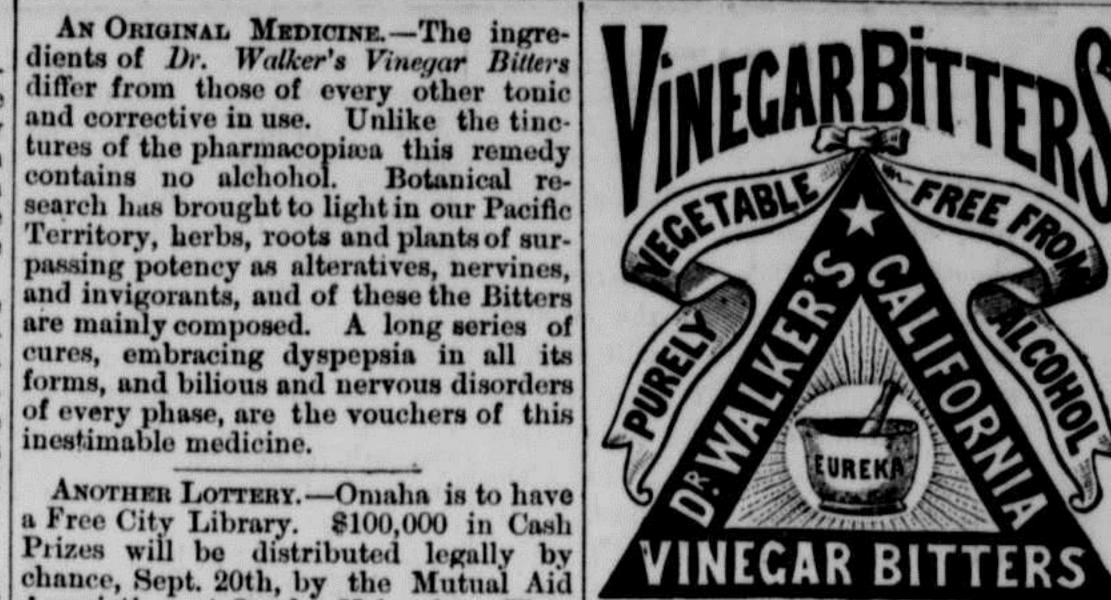

If an attack with Diarrhosa, Dysentery, or Cramp Colic,
don't delay the use of the Pain Killer. Sold by all Medi-

the Pain Killer. I consider it a very VALUBLE MEDI-CINE, and always keep it on hand. A have traveled a good deal since I have been in Kansas, and never with-out taking it with me. In my practice I used it freely for the Asiatic Cholera, in 1849, and with better success than any other medicine; I also used it here for cholera, in 1855, with the same good result. Truly yours. A. HUNTING, M. D.
