THE celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self-abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

THE LECTURE should be in the hands of every youth and every man in the land. Sent, under seal, in a plain envelope, to any address, postpaid on receipt of six cents, or two post stamps.
