AIKIN'S GEOGRAPHY.  
JUST PUBLISHED,  
And for sale by M. & J. CONRAD & CO.  
(Price Two Dollars)  
Geographical Delineations;  
Or, A Compendious View of the Natural and Political State of  
ALL PARTS OF THE WORLD.  
By J. AIKIN, M.D.  
Author of many valuable Works.  
"The precise object aimed at in this work, (says Dr. Aikin,) is to afford, in a moderate compass, and under an agreeable form, such a view of every thing most important relative to the natural and political state of the world, as may dwell upon the mind in vivid colors, and distinctly impress it with just and instructive notions."  
"No particular class or age of readers has been in my view in this performance. If it prove answerable to my intentions, young persons of both sexes, at the period of finishing their education, may peruse it with advantage, as a summary of what is most important to be remembered relative to the topics treated of; and it may afford commodious information to those of maturer years, who are destitute of time and opportunity for copious research."  
"The work possesses many geographical works, yet it is presumed that the publication of Aikin's Geographical Delineations needs no apology. Many competent judges in Philadelphia, New York and Boston, have examined this work, and unanimously agree that it is neat, perspicuous and useful; well adapted to the instruction of youth, and the information of persons of mature age. Perhaps it is no exaggerated praise of this work to assert, that no system of geography of equal size is, in all respects, so fit for the purposes of instruction and general reading."  
Extract from the Annual Review, vol. 4.  
"The happy application of clear and precise description, judicious selection, and graceful plainness of style, to the illustration of geography, has already been felt and approved by the public, in Dr. Aikin's England Delineated. Now will these Geographical Delineations, which at present demand our attention, be found in any respect unworthy of their author. Differing materially as to its object, both from the elementary treatises, and the more complete systems of this important and interesting branch of general science, this work may be considered as occupying a newly discovered station, whence young persons of both sexes may review with pleasure and advantage the real extent & bearings of their former studies."  
"The principal materials of this work are necessarily compiled from other books; but a very pleasing part of it, the delineation of national characters, is original; and the strong tincture of liberal moderation diffused through the whole, together with the uniform good taste and simplicity of the style, give to it a certain charm that is easier felt than described."

Valuable Lands &c. for Sale,  
On the 19th June next,  
In compliance with the will of Engelhard Tisser, Esq. lately deceased, will be sold at public auction, on the premises, at 12 o'clock, on the 19th June next,  
All that valuable PLANTATION whereon the deceased lately resided, containing about 331 1-2 acres, distant about 4 1-2 miles from the city of Baltimore, and adjoining the lands of Gen. Smith, Daniel Bowly, esq. and others. On this land are erected, a comfortable Dwelling-House; a convenient stone Barn, 33 feet in width and 75 feet long; a Still-House, with 2 Stills; and a Spring-House, the lower part stone, the upper part brick, exclusive of several other tenements, and every other necessary out-house; good Apple and Peach Orchards, of excellent fruit; also, good kitchen gardens. About half the land is clear, the other half is young thriving wood; a considerable quantity of meadow, a constant stream of water running through it. The upland is kind for all sorts of grain. This property is a healthy, handsome, and pleasant situation.  
Also, at the same time and place will be sold at auction, as aforesaid,  
All that well-known valuable FARM, late the property of the deceased, called Grace's Quarter, situated in Middle-river Neck, at the conflux of Gunpowder river and Satpette creek, by which two waters it is almost surrounded. It contains about 424 acres of arable wood and meadow land. For fertility of soil, this place is equalled by few. To point out the number of natural advantages attending it, would far exceed the bounds of an advertisement. There is on it a good comfortable House, almost new, with Kitchen, Negro Quarter, Spring-House, with necessary out-houses, and a large Frame Barn erected in the summer of 1804 with stables, cow-houses, &c. underneath it. Likewise, two apple-orchards, two peach ditto, of the best of fruit, with cherry and plum-trees, and about 20 remarkably fine pear-trees, from the fruit of which alone considerable sums have been made. In fact, no place in the country can be better situated, either for the grazer or planter, for nearly the whole of the farm can be put into meadow at a small expense. The fishery on this place, in the season, is extremely profitable and the above-mentioned land with wild fowl of all kinds. It has the advantage of an elegant prospect of the river and adjacent country, and good water. The distance to Baltimore by land is 16 miles, and by water 4 or 5 hours sail.  
Persons disposed to purchase, are invited to view the above property.  
Both the said farms will be laid off and divided into smaller farms, to suit purchasers. Plans of the same will in a few days be left at the auction-room of M. Thomas Chase.
