A REPORT FROM THE REGISTER OF THE TREASURY. - A report has been presented to Congress from the Register of the Treasury relative to debts due the government, that have remained unpaid for three years prior to September 30, 1844, by which it appears that the Bank of the United States still owe \$83,394 88 on the second, third, and fourth bonds due in September 1838, '39, and '40. A judgment was obtained for this debt in the Eastern district of Penusylvania in 1841, and proceedings were subsequently instituted in the Commercial Court of New Orleans, to attach the effects of said bank in that city. Under these proceedings the sum of \$414,133 27 was collected and deposited, which still wants the final decision of the Su-Frame Court of the United States.
