

my Co, in the detail, but I cant call the names of any one who was in the detail, or who I complained of my pains to, I think Sgt. Wm Hutchinson was in charge of the detail the day I was injured, but he is dead. Since thinking of it I remember that # Emory Cooper priv of D. my Co was there that day I cant say where he is now. The last I knew of him he was in Phila Pa. Jacob Cooper and John Allen both dead were present as was William Toney - ^{dead} cant say where he is. My back hurt me at times after that, but I hurt it again. After I was captured & while in prison at "Libby" I was taken out by the Rebel officers and put to building breast works in front of Richmond, Va. There was some hundreds of us doing that work there was several of my Co & recd I remember that Sgt Whittington ^{dead} Aaron Carr ^{dead} Perry Wallace ^{dead} Alex Johnson ^{dead} Jacob Cooper ^{dead} John Allen ^{dead} & William Lane ^{dead} were there but cant think of others. I cant say how many of my Co, were captured with me but quite a number of them were. No I cant give name of any living person who was in that prison while building the breast work
