March 29, 1907 and

The course recommended
was not deemed advisable
then.

Claimant is a colored
man and has declared
his inability to prove
age.

In my judgment the
adjudication of the claim
will only be stayed by
calling for a more re-
port.
This slip attached as
recommended.

Claimant,

Soldier, Stephen Perkins

Co. 7 Reg't. U.S.C. Inf.

Respectfully,

Mr. Tallam, Pensioner

I suggest returning for call

on the U.S. Report for an
additional statement to
show age of soldier at date
of muster - or if of record
otherwise than as set forth
in formal description of
enrollment.

This course is warranted
by claimant's former state-
ments as to age and by
the finding of the Board of
Review Aug 3, 1907, Nov 17, 1908.
If age is just above 60
and then as now before, the
claimant should be returned

Have
you return the War Dept
reports in this case and
request an examination
of all records upon which
age appears to determine
whether it is shown otherwise
than that given in report of
Mar 3, 1906

This old colored man alleges
consequently that he was born
in 1833 and the age shown at en-
listment would make his birth
in 1843. It is barely possible
that a mistake was made in
transcribing. The Board of Review
