Totally unfit for work,

I do not know the cause of his ailment, always thought his paralysis was due to exposure, he was of poor health after the war, and tried to continue to drive "Coach" and I judge the exposure resulted in his paralysis. He is a man of excellent habits, is a member of over 15 years standing in the A.M.E Church of this city, and has never used strong drink to my knowledge, and if he had I am sure I would have known it. His clots paralysis has caused an impediment in his speech, poor eye sight & partial deafness. I am sure his present physical condition is in ~~no~~ no way due to vicious habits. He is a poor man, unable to work and depends on his family for support.

I am not related have understood your questions & my answers have been properly recorded.
