

Francis - Fathot Co. Inds  
Wilmington, Del.  
2-3-87.

Respectfully returned.

Witness says that  
the leg - right - was all  
swelled up when he  
came home but that  
he only saw him once  
in a while at Eastern  
for just a few years.  
That ~~he~~ moved in his  
neighborhood about 10 years  
before he died and was  
there about the same as  
when he came home,  
and that he could not  
work much or walk well.

That he did not see  
his ankle till he died  
and it was then all  
swelled and discolored.  
That it always swelled  
when he saw him  
and was never able to  
do any hard work after  
the war on account of  
lameness. Witness  
very strongly biased in  
favor of soldier.

General standing &c
