THE Subscriber begs leave to inform his friends and the public generally, that he has lately moved from the Centreville Hotel, to the recently repaired and commodious building, "WHITE HALL."  
It gives him pleasure to say that from the convenience his present establishment affords he will be enabled to extend to travellers, comforts hitherto beyond his power. The House to which he invites them, will in a very short time be such repair as must ensure every luxury that can belong to good parlors, and to convenient lodgings. His Bar is furnished with the very best liquors of every description, and his table with the most choice meats and dainties that the market of his portion of the country can supply. For Strangers, who may wish to travel to other parts of the Peninsula, he has good carriages and horses that can always be had at a moment's notice. For the PATRONAGE, since he commenced his line of business, he has received from a liberal public, and his friends, he asks to be allowed to offer his thanks with the hope, that his attention to their accommodation will in future be crowned with greater satisfaction to himself than heretofore.

**READ'S PATENT.**  
IMPROVED METHOD OF BUILDING CHIMNEYS.  
IN the art of building Chimneys, and altering those already built, in such manner as to prevent or cure their smoking.  
From the time that chimneys were first introduced the building them has been but a series of experiments. The best workmen have only succeeded when accidentally approximating the principles, now first systematized and offered to the public. That this subject should have been involved in mystery till the present time, can only be attributed to the imperfect state of Chemical Science until within the last few years. The progress recently made in that science has enabled the subscriber to reduce the art of building chimneys to a system invariably producing the desired result with respect to smoke, and at the same time making a saving of fuel.  
Having secured the exclusive privilege of a system and vending said system, for fourteen years from the third day of April 1827, the subscriber offers the same for sale on the following terms. The right for a city or county, \$50. When two or more counties are purchased by one person \$40 each. Ten or more counties at one sale \$30 each. For a Town, Township, Borough or Village, \$20. For a single house, \$5. Any person wishing to purchase may transmit per mail the sum required, and a deed shall be immediately returned containing all the necessary instructions to enable any mason to construct chimneys. Every chimney which shall be built under the authority of, and agreeable to this patent is hereby warranted a good chimney. All letters to the patentee must be post-paid. The publisher of a paper at the Capital of each state, who shall first publish this advertisement and Certificate, and continue the same for one year will entitle himself to the right for such city or county in which the seat of Government is located. Every publisher of a paper in the United States, who will give this advertisement, &c. three insertions, and forward one of the papers, shall receive the right for one house.

**Proposals for Publishing by Subscription.**  
A new and elegant general Atlas.  
IN Imperial quarto—to contain distinct Maps of all the principal Kingdoms and States throughout the known world, and separate Maps of each of the United States.  
BY H. S. TANNER,  
Author of a New-American Atlas, Map of the U. States, &c.  
Although numerous collections of Maps have been published in this country, but few have yet been completed on a scale and plan calculated to convey an adequate and correct idea of the subject, or to do justice to the improved state of Geographical Science in the United States.  
Most of these heretofore offered for public approbation have been only the first essays of this kind, and principally designed for the use of schools, or to illustrate geographical works; while those published in Europe are extremely defective and incorrect as respects the United States, the geography of which is so rapidly progressive, that no European publication can keep pace with its advancement. This part of the work must be brought to maturity in our own country; and such is now the respectable state of the Arts here, that we can assert with confidence that we possess the materials and skill sufficient to exhibit a topographical representation of the U. States, infinitely superior, as it regards correctness and detail, and every way equal in style, to any European publication of the kind.  
The publisher of the proposed work has been collecting materials, preparatory to the execution of it, for several years, in which he has been assisted by some of the ablest geographers in this country and in Europe. In addition to this, he will avail himself of all the recent and important discoveries in both hemispheres, to enable him to execute the proposed Atlas in a manner every way satisfactory to the public.  
The materials for the maps which relate to the eastern continents, will be selected from the latest and best European authorities, and will exhibit a complete view of the world in connexion with the United States. The State maps will be engraved from drawings compiled, as far as practicable, from original documents, on a scale sufficiently large to admit of an accurate representation of the countries, with their subdivisions, the seas, lakes, rivers, and mountains, the counties, cities, towns, and villages, and all the principal roads, &c.  
The work will be published as soon as circumstances will permit, consistently with accuracy and elegance of execution; and from the measures that have been adopted to procure the necessary information, no material delay is apprehended.  
In the execution of such an extensive plan, very great expense must be incurred, but the utility of a work of this description being evident, the publisher has entered on the task with alacrity, relying with full confidence on the importance and merits of the work, to ensure the patronage necessary to its completion.  
Having thus briefly delineated the plan of the work, the publisher offers it to the public on the following

**TERMS OF PUBLICATION.**  
1. The proposed Atlas shall be constructed from the latest and most authentic documents. It will be engraved in the first style of map engraving, and in every branch of its execution accuracy of detail shall be aimed at.  
2. The maps will be printed on the first quality vellum paper, and coloured in an elegant and appropriate manner.  
3. The Atlas will consist of at least six Maps in imperial quarto, with an engraved title sheet. It will be delivered to subscribers at Ten Dollars, payable on delivery.  
4. Persons collecting subscribers for six copies, and becoming responsible for the payment, shall be entitled to a seventh gratis.  
5. Subscriptions received by the publisher, No. 144 Chesnut Street, Philadelphia.  
6. The proprietor of the proposed work, desirous of rendering it as correct as possible, embraes the means of respectfully soliciting the aid of gentlemen residing in the interior, who may be in possession of any original geographical information, regarding any section of the United States, by communicating the same to H. S. TANNER, in Philadelphia, by whom the Maps will be drawn.  
In preparation—A new and authentic Map of the World, embracing all the recent discoveries and exhibiting particularly the nautical researches of the most eminent circumnavigators. The Map will be six feet long and 3 feet 4 inches high; it is nearly ready for publication, and will be issued in January next—until which time, subscriptions will continue to be received at the reduced price of \$6 50 each.
