John H. Martindale, do Thomas T. Gantt, Maryland. Fourth Class James L. Mason, ---Danville Leadbetter, Maine. Alexander Hamilton, New York. Barnabas Conkling, do Joseph R. Anderson Virginia.

N. Y. Amer. THE PRESIDENT'S HEALTH.

We regret to learn that the President was and dry," is much better worth seeing than so seriously indisposed yesterday as to require: the ship passing into the dock, or after she was medical attendance. Dr. Warren, in whose docked, previous to pumping out the water. | skill he has great confidence, was called in at Captain Henry E Ballard, appointed to the an early hour in the morning, and found it command of the U.S. Ship Delaware, arrived necessary to use a lancet, and to administer here yesterday morning in the steam boat Co | to him different kinds of medicine. The President kept his chamber during the day, and saw only half a dozen of his friends. Last Character of the Dutch .- It is well known evening he was much better, the feverish that a habit prevails almost every where, of symptoms of the morning, having in a good underrating and disparaging Dutch character | degree, subsided. His projected visit to the and Dutchmen. Nothing is more unjust, and Navy Yard, Bunkers Hill, Harvard College, yet nothing is more common-nothing testi | &c. was of course deferred; and it is now unties more unequivocally of the ignorance and certain whether he will be able to visit any of perjudice of those who indulge in it, than this | those places. The Government of old Harhabit .- England is called the mother country; vard intended to confer upon the President

of Maryland, was the first among the nations | We are not advised of the future movements of Europe to take a stand in favor of liberty, of the President, but presume that we will not applied to for the following receipt, until it and single handed, maintained a sixty years' be able to leave this city before tomorrow or

The Globe says:- "At six o'clock in the algunpowder and printing, the world is indebt. the Mayor," &c. It was this "airing" which, ed to the Dutch. And the best and most cor- in the opinion of judicious men, caused the under the auspices of the synod of Dort. In weather was cold enough to chill the blood of a discourse on subjects of American History, a healthy young man—the air was very damp, by Gulien C. Verplanck, that gentleman, and the ride altogether an unpleasant and untlers of this country, and especially of New sident might as well be buried at once at York, takes occasion to allude to the prejudi- Mount Auburn, as to take such another air-

The Boston Commercial Journal thus notices the progress of light fingered business during the first day of the President's sojour-

ning in that city: The efficiency of soot in stopping blood pro- "One gentleman of our acquaintance lost
