SALE OF A PRINCPALITY. The Post Ampt Gazette of Frankfort gives er the following extract of a letter of the 22d ult. from St. Wendel, principality of Lichenberg, amounting its incorporation with the monarchy of Prussia. The inhabitants, amounting to six thousand, were handed over without the slightest notice, like so many ballocks, to the tender care of a member of the "Holy" Atti ance. Their "liberalism" was considered dangerous, and they are to be brought to reason by the judicious use of Prussian hayonets:-

"Yesterday our long painful state of incertitude was brought to an end; we are definite! incorporated with the Prussian monarchy. T day the principality did homage. The ceremony attracted an immense crowd. At half-past ten a detachment of Prussian soldiers entered the town, and drew up in parade order before the castle. After a short address, M. Symborski, the president of the regency, delivered up the principal Secretaries of State accordingly.

New Trat in a capital care.-The New Hampshire Statesman contains a notice of a case which came before the Superior Court of that state at Concord on Thursday last. Abraham Prescott, on a trial before the court of the motion, that during the trial, the jury were repeatedly seperated; several of the jurors went into the post office; one went to a shop, and another to a hotel for a builde of clothes; several times during the trial persons not sworn were admitted into the room where the jury were; that ar lent spirits were kept in the jury room, and that one of the jurars was seen drinking at the bar of a public house.

On Friday, Mr. Justice Parker Jelivored the opinion of the Court. It condemned the irregularities of jurors in leaving their fellows to attend to business of their own, although accompanied by officers, several instances of which were proved, but did not deem such sufficient reasons for granting the motion of prisoner's counsel. But it having been proved in one or more instances, that a juror had separated from his fellows, unattended by an officer, and that one had been seen at the bar of a public house drinking ardent spirits, and, moreover, that ardent spirits were introduced into the jury room, the Court, for these reasons, set aside the verdict, and ordered a new trial.
