Martin Van Buren thus answers their interrogations!

WASHINGTON, May 19, 1836. Gentlemen .- I have to acknowledge the receipt of your letter communicating to me a resolution adopted by the "National Anti-masonic Convention," recently assembled Philadelphia. instructing you to ask me whether if elected President of the United States I would appoint adhering masons to office, and have the honor to state, in reply, that I should a federal poney, behind White, in Virginia, not, in the event alluded to, feel it to be my duty to inquire whether applicants for office But if you are opposed to sucla abominations were either adherring masons or opponents of any such applicant being an adhering mason which I have now received, or to secure my instance (I believe,) on record of the Gener- such a designing trick, and retain the sceptre of principles—if you are "against the Tariff, a- would certainly not be regarded by me as conlification, against Internal Improvement by at the same time, look upon either circumstance as creating a disqualification for office, if the applicant should prove to be, in all other be behind once more.—Ohio Sun. respects, well entitled thereto. True it concerns us but little if every mason in the State bare his back to receive the lash of his enemies but for his sycophantic course he deserve to be held up to public view that the world may learn how men are swayed by political prejudices. Knuckle to this, masons of Mary land, and ere long you'll have to bow "Address issued by an Anti-masonic meeting recently held in Pittsburg, Pa." It needs no

"Of the anti-masonry of our candidate we need say but little. Gen. HARRISON has deliberately declared free-masonry to be "both put down. His views take in our causes the true principles and purposes of democratic anti-masonry, as involved in the present contest. And when contrasted with the views of Van Buren, who, with tenfold the knowledge of the office, no disqualifying consideration, surely no antimason can hesitate as to which of the two is

entitled to his vote." Masons and Odd Fellows of Talbot to the polls, to the polls on Monday nest, and if you desire to elevate a man to the Presidency who would as soon think of appointing to office one of the sprigs of English nobility-a scion from the pure tory stock of the house of Eldon, or Louther, or Jenkins m, or Wellessly as a member of a secret association, why, vote for Gen. Harrison, the oldest antimason in the country. But if you want a man who would never stop to ask in his appointment to effice, whether the applicant be an adhering mason or not, vote for Martin Van Buren.

BY LAST NIGHT'S MAIL.

AN ABORTION .- The anti-reformers in Annapolis, attempted a snort time since, to get up a meeting to instruct Messrs. Linthicum and Harwood to join the twenty one Electors in making a Senate. About two-thirds of

ting, instead of attempting to instruct Messrs. Linthicum and Harwood to enter the college. So the matter ended, and there it will end:-Balt. Rep.

LATER FROM MEXICO. The schr Creole, Capt. Cormer, arrived yes-

terday from Tampico, and brings us regular files of Mexican papers. We have before us the Gaceta de Tamaulipas, to the 13th ult and inclusive. We find little in them of interest relative to the affairs of the republic. The proceedings of the Mexican Congress

possess considerable importance, as affecting

the commerce of the United States. Among

other measures, we find the discussion upon the project of admitting Spanish vessels in the several ports, as proposed by D. Gaudalope. In the sitting of the 22d August, the deputy Villamil presented a project of a law for the withdrawal of copper coin: and authorizing the government to borrow foreign capital to an amount sufficient to redeem this money. The

loan to be guaranteed by a special mortgage upon the half per cent taxes of the government upon rural and urbane property. The consideration of this law was referred to the committee of interior relations; no report had yet been made by them. The voluntary subscriptions are being made

through all the principal cities of the republic, tributions continue to be so small, that if the A convoy lest Mexico on the 22d August

RIDING DOUBLE.

In days gone by it was no uncommon thing to see a lady riding behind a gentleman. these days of wonder and whiggery, Harrison is riding behind Webster in Massachusetts on and we learn that[s] he is trying to get up behind White in Illinois, and Mississippi. Verily this is a cheap mode of riding into office. Harrison was behind DAVIESS at Toppecanoe, behind Croghan at Fort Stephenson, behind Dudley at Fort Meigs, a "good way" behind Winchester att he River Raisin-behind Johnson at the Thames, and finally behind the gingerbread pedlar in Hamilton county. He will
