THE subscriber having made arrangements counties, that there carding machine at upper which exists on his estate in Talbot County in- he reception of custom. torms the Agricultural community, that he is They have employed one of the most expenow ready to deliver, of the above article, any rienced carders, and if wool is put in proper or quantity that may be required, by giving him timely notice.

The Marl may be taken from the banks at the price of one cent per bushel cash. The fertalizing properties of calcareous mark are now so well known, that it is unnecessary to advert to the subject-in reference to this deposite it may be stated that it consists of Sea shells, with very little admixture of earth and contains from 2 to 4 times the quantity of lime that is contained in the best Engli h Marl -Those wishing to purchase will please ad dress William B Smyth, Easton, Md. Vessels going for it will pass up the Great Choptank until the Dover Bridge appears in sight-they will then come to Barker's landing where they will find the lands of the undersigned on the west bank of the river.

WILLIAM B. SMYTH. April 10, 1838

The following is an extract from the report of the Geologist appointed by the state of Maryland to make a minute geological survey of the State.

But perhaps the most valuable beds of shell marl in this part of Talbot county, in as much as they may be made extensively available to goods replaced. the public demands for the article, are those report, They occur three miles below Dover the most approved and correct published. bridge, forming the high bank from fifteen to May 1, 1838. twenty feet above tide, being one compact mass of tossil shells, and extending nearly a mile along the river, on the farms of the late Col. Sayth and Mr. Atkison. These leds are in configuous strata, apparently successive the ascending order, of oysters succeeded ! clam shells intermixed with other marine shelis, scallop, clam and scallop and upper made to bring these beds into notice, with a view of enlisting them into public service, by known on application to the subscriber. giving to their proprietors what was deemed proper directions for extracting the materials and salutary advice as to a just estimate of its vaue in order to secure a constant and permanent disposal of it. The subject is now n progress of experiment. South of these THE subscriber again takes the opportunibanks on the Choptank, no other deposite of marl is known to occur.

Blacksmithing.

THE subscriber begs leave to return hi sincere thanks to his friends and the pubhe generally, for the very flattering encouragement he has received from them. Grateful for past lavors he solicits a continuance of the same. After twenty four years experience in the business he thinks he can assure them that their orders shall be fulfilled with that neatness, durability and despatch, which it equaled, shall be surpassed by none.

He still continues at his old stand at the corner of the woods, with a full supply of STEEL. IRON and Coal, ready for HORSE SHOE-ING. All kinds of edge tools made and re-All kind of plough work; also HAR BOWS, CULTIVATORS, CART WORK, &c. The public's obedient servant,
