

Some details and arguments ^{offer as} to ~~prepare~~ reasons for the assertion
that the belief which we now solemnly make, that Garrison
and Tappan & other intelligent leaders of the ^{deluded} Abolitionists
are the mere minions of the minions of the British Govern-
ment. * That many of the Abolitionists may be honest and
otherwise respectable citizens we will not deny, for we know
not the contrary, but that they are the dupes of the wicked
and designing portion of the people, who through all nations
have excited the appellation of enemies to the human

which we think will answer their purposes. ** all
which is respectfully Submitted.

* We do not hesitate unreservedly to characterize these miscreants
as murderers and anarchists, and the first fruits which has
been gathered from the seed which they have sown, has been
in Boston, New York Philadelphia ^{the} and Lynching of certain
itinerants to the South. - That the storm which they have
been preparing will reach these gentlemen ^{compatriots} ~~themselves~~
themselves with unerring certainty, the fate of their ^{compatriots}
Moral & Robert Pierce ought to warn them and admonish
them.

** We also report certain resolutions on the subject.
