BASE HITS.

News From The Base Ball Field of Kent

County Teams.

College Saturday afternoon at Home-

wood 11 to 6 in what might be called a

see-saw contest, which was replete with

errors by both sides, nevertheless inter-

esting from the standpoint of the spec-

tators. This was a state championship

Chestertown would beat Hopkins, but

after the third inning the local men

braced and until the end of the game

Pieper allowed Washington College

nine hits. They were scattered, how-

ever, and did not count seriously in the

scoring. Only a base on balls was given

by the Hopkins captain. For the first

few innings Bowen pitched a good game

for the visitors, but toward the latter

part he weakened and was replaced by

Biddle. Bowen passed seven men and

Neither side scored in the first two

innings, but Washington started the

ball rolling in the third. Usilton was hit

by a pitched ball, Bowen beat out a hit

along the third-base line, and Garrett

bunted to Pieper, who made a wild!

throw to third. With three men on the

bases, Meekins hit to Pieper, who

fumbled the ball, allowing Usilton to

score the first run of the game. On

Hallack's error of Healy's easy grounder

Bowen crossed the plate. This ended

In Hopkins' half of the third Pieper

was hit by a pitched ball and went to

third on a bad throw by Pearson. Sut-

il to score. In the fourth session Usilton

walked and scored when Webster slipped

in attempting to field Bowen's fly.

Wilson opened up for Hopkins by mak-

ling a double, and Hallack was allowed

to remain at first because of the failure

teams seemed to go to pieces, and the

ing by one of the Hopkins men, Wash-

ington College would have done no more

scoring. Frampton, who replaced

Healy in right field, reached first base

Lewis hit a three-bagger to centre field,

on which Frampton scored. Lewis

scored when Hallack muffed Wallace's

hit to short, and Usilton's single to right

# Merching saystanian and manine in a see on . Land Value Almost Doubled

HEN a Lee county, Illinois, farmer bought a run down 400-acre farm, his neighbors thought he had made a bad bargain. After three years' soil treatment by scientific methods, he raised more than eighty bushels of corn to the acre on land that produced less than thirty bushels the first year he farmed it.

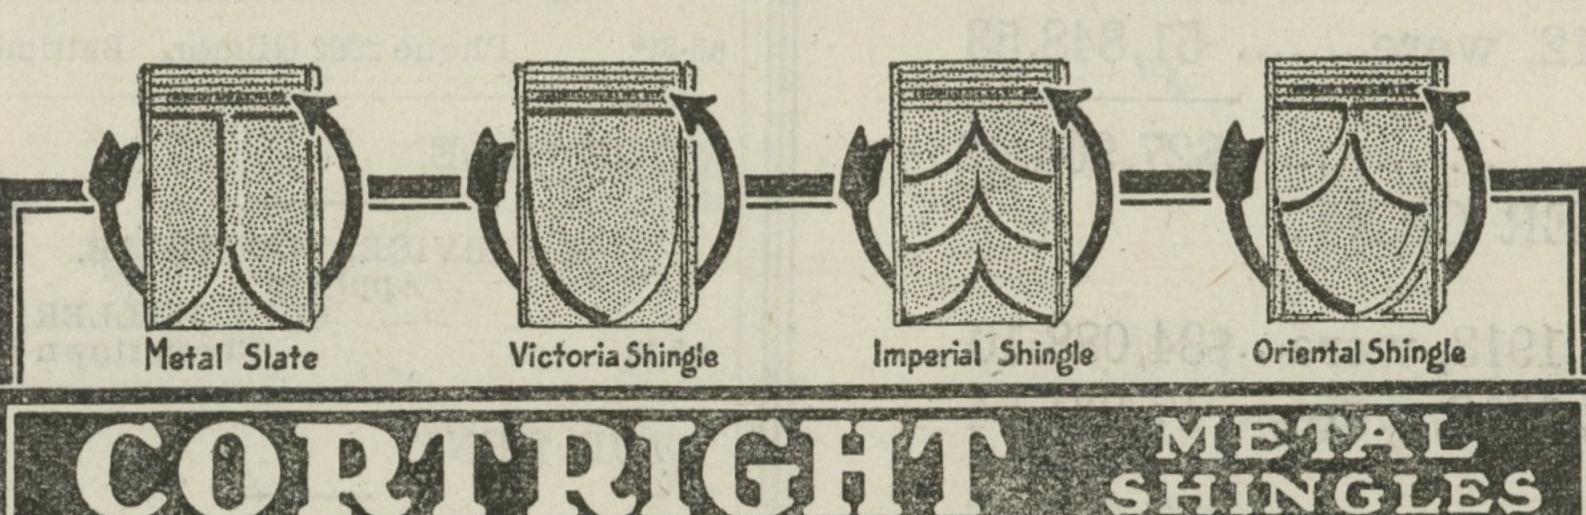

It is no longer unusual for us to get reports from farmers who have been using manure spreaders consistently for periods ranging from three to five years, to the effect that their land is regularly raising so much more produce that the value of the land is almost doubled.

are made in various styles and sizes to meet all conditions. The low machines are not too low to be hauled, loaded, through deep mud or snow. I H C spreaders are made with trussed steel frames in wide, medium and narrow styles; all of guaranteed capacity. There are both return and endless aprons. In short, there is an I H C spreader built to meet your conditions and made to spread manure, straw, lime, or ashes as required.

IHC spreaders will spread manure evenly on the level, going up hill, or down. The wheel rims are wide and equipped with Z-shaped lugs, which provide ample tractive power. The rear axle is located well under the body and carries most of the load. The apron moves on large rollers. The beater drive is positive, but the chain wears only one side. The I H C dealer will show you the most effective machine for your work. You can get catalogues from him, or, if you prefer, write
