### AN IMPORTANT MEETING

In another column the ladies of Chestertown are calling a special meeting for next Wednesday at 3.30 P. M., for the purpose of inaugurating one of the great needs of this community, viz., a REST ROOM FOR COUNTY FRIENDS. The meetling is to be held in the Principal, s room

in the High school building. Every merchant in Chestertown especially, should be present, as well as every business man. It is a matter which touches the very heart of the business of a county town and we urge a full attendance on the part of everyone. The possibilities of such a rest room is certainly inspiring. Chestertown needs just such an institution.

## GRANGE NOTES.

The seventh anniversary of Still Pond Grange was celebrated last Saturday afternoon. After the usual business meeting in the afternoon a splendid "Still Pond Grange" supper was served. At seven 'clock the lecture hour, open to the public was held and the following program, under the management of Sister Lillie Kelley was rendered: Address of Welcome ...... Sister Kelley

Music ..... Grange Choir How Do You Think a Farmer Ought to Treat

the Home or the School.....Brother Hepbron Open for general aiscussion. Violin Solo..... Leslie Schofield The Kennedyville Grange will meet

Monday evening at 7.30 for the initiation

of new members. The short course for farmers and their wives held in Harper's Hall in February was a decided success, both from the interest aroused and the information given. In the poultry lectures by Mr. Opperman the cost and specifications for building a good, modern poultry house of concrete for 100 hens was given, and the price of material for same was very much less than \$100. We learned to make a tested lice powder for hens and chicks for one-fifth the cost of the kind we usually buy; how to get eggs in the winter when they are so hard to get how to choose our breeding stock and how to manage it; the best way to feed chicks; the cheapest way to feed and care for hens. Mr. Wolcott gave instructive lectures on cows and touched every point that the dairyman wanted to know about. If nothing happens to
