COUNTRY LIFE TRAINING THROUGH CLUB WORK.

chool Teacher Is Logical Leader In Boys' and Girls' Clubs.

J. E. METZGER, Maryland Agricultural College. The boys' and girls' clubs, like other clubs, should be considered as means to an end. The club work should result in greater vocational efficiency. If the club has for its purmer, chicken mites thrive and multiproficiency from its members in these kept free from these pests. lines. Likewise. if the club is organ. These mites hide under the roosts ized for the study of agricultural prob and in cracks and crevices near them. been accomplished.

in purpose and scope of work under top edges rounded are very good for taken. As has been said, the ultimate roosts. end of this organized effort should be Hens infested with mites do not de greater efficiency. The club work well and often times acquire a peculiar Kodak and at small cost. must be vitalized. It must pertain to sniffle, even in seasons when colds are the industries of the locality. In the not prevalent. Mites keep the hens locality where a rural high school ex. agitated all the time they are on the ists, the club need not concern itself roosts and do not allow them the rest backs for most of the with the study of the elementary prin. they should have. The proper way to ciples of agriculture, but may devote handle mites is to prevent their getting popular models. its time to more scientific problems a start. If the roosts and especially and their applications. However, in the places where the roosts are joined the many localities of this State, where such advantages do not exist, the initial work of the club would be to teach the elements. The end of this type of club would be to have the local school assume the responsibility of the elementary instruction work as soon as possible. In either instance, It is best to put it on once or twice the club is composed of individuals in a week for a time and then when the the adolescent period, and in order to mites are subdued not quite so often. be effective, its educational feature Personally, I like to put it on with must be its strongest argument.

their character, the logical place for the tiny white specks near and in their organization is at the school them. building. The teacher should call the meeting and form an organization. To begin with, it might run as simply a school club, but eventually, it should reach all of the young people of the community. All that is needed is some one to take the initiative. Leaders who will keep the movement going will soon be developed. It is advisable to have some older person, who may act in an advisory capacity, Continued shortage of grass in many as a member of the club.

year to form a club of boys and girls adverse weather condtions of recent is the autumn when the school opens. years. There seems to be a decided infor companionship, and are readily organized for special work. It is, however, not essential to wait until the opening of the school year to organize. Get together a group of boys and girls who are willing to devote a definite amount of time to study, and you will have the basis of a successful club.

THE KEEPING OF HERD RECORDS PROVE OF GREAT VALUE.

G. E. WOLCOTT, Maryland Agricultural Expirement

The value of keeping herd records is clearly demonstrated by the increased productions that have been made in the Harford County Dairy
