**Fordson**

**170,000 Now in Use**

Built with over strength in every part; built to withstand the constant strain of heavy duty; tested out under every condition of farm and belt work, and put to actual test by 170,000 owners during the past three years—the Fordson Tractor has lived up to every claim made for it.

No matter what the farm task—whether plowing, disking, harrowing, threshing, baling hay, grinding feed, pumping water, sawing wood, pulling stumps, filling silos, or any of the many other jobs around the farm, the Fordson will not only do and do well, but quicker, easier and at less expense.

There are so many different time and money saving ways in which the Fordson can be used that you owe it to yourself to get the facts. Come in and see the Fordson, or write or phone for the information.

When you deposit your money in the National Life Insurance Company of Vermont you have the satisfaction of knowing that you are connected with one of the best managed financial institutions in the United States. The company is purely mutual. The dividends were increased in 1916 and since that time have continued without change, regardless of the influenza and the war.

It would be to your advantage to know more about this grand old Company.
