### ROCK HALL

Mrs. Harvey Dickinson is closing out her mercantile business at this place.

The rural mail carriers of this section were a happy pair of kids on Wednesday, because of Washington's Birthday holiday. It gave them a cessation from mud-wading.

There are several legislative headquarters here about and many are topics discussed. Among which, why is a State Conservation Commission? Harry Vickers is being marked, because of the proposed oyster, crab and fish law suggestions and now comes Congressman Linticum harping on the same suggestions and he too is marked.

Some of our oystermen succeeded in getting out on the oyster bars on Tuesday, but met with poor encouragement, owing to prices being down to 20 cents per bushel.

The winter fishermen are beginning to cut out. The season has been very unremunerative for the most of them.

A number of the watermen are preparing for the spring fishing, but not very high hopes.

Spring is on the way. Considerable improvements are in progress here and black snakes are on the move, several being killed in this section.

### A CURE FOR "ITCH."

The "itch" is a skin disease which is prevalent in the county. Many of our children are suffering from it. It is very contagious and is passed from one child to another. Very often entire families develop it, through the use of a common towel hung on the kitchen door, which is used by everyone from the farm hand to the baby. The mother may not intend this but it is done in a thoughtless moment.

If the disease develops, what can be done to cure it?

If the following instructions are carried out it may be cured in two weeks. It is not the "Seven Year's Itch," as so many believe. If entirely cured it will not return.

Mix well one teaspoonful of sulphur to two tablespoonfuls of lard or goose grease. After taking a very hot bath quickly and vigorously with a dry towel, apply the sulphur and lard. Rub it in thoroughly over the entire body but rub most where the blisters and sores are. Repeat the bath and application every night. Wear close fitting underclothes and if it extends to the hands and feet put on white socks and gloves. Wear these same clothes for a week, night and day, and then boil all leotching and bed clothing that comes near you.

Repeat this until all signs of the disease have gone. Remember if not entirely cured it will return.

Margaret R. Massey, Public Health Nurse.

### GRANGE NOTES

Kent County Pomona Grange meets at Kennedyville Saturday, Feb. 18th. Although all roads are not open to travel quite a large number of Grangers were present at the meeting and a very interesting and helpful meeting was held.

Resolutions were passed unanimously in favor of the Anti-Race Track Gambling bill now before the Legislature and the secretary was instructed to communicate with our members in the Legislature urging them to vote for the bill.

All Grangers are requested to write personal letters to our Kent county members asking them to vote for the bill thus helping to remove this awful sin of race-track gambling from our fair State.

It was the opinion of members that degree work in the Grange was an aid to building up a strong organization. A committee was named to arrange for giving the fifth degree in the county.

Subjects of general interest were discussed and some very helpful suggestions were made by State Lecturer Mrs. Harry Williams, who had a very interesting program prepared for the lecture hours consisting as follows: Solo, Miss Helen Baxter; recitation, Mrs. Ada Hurlock Hitch; trio, Mrs. Shallcross; Mrs. Carey, Mr. Basin; duet, Mrs. Shallcross, Mrs. Garey. A paper comprising old fashion methods of teaching with present day methods, Miss Caroline Smyth; history of the Grange in Kent was given by Albert Jarvis, from old records he found that was at Kennedyville and that the first State Grange in the State was at Kennedyville and that the first State Grange met at Still Pond; Dr. Clarke spoke on the school bill.
