SPARTANBURG, S. C., April 2, 1887.

Gentlemen—For twenty years I have had a sore on my left cheek. It had gradually been growing worse. The many physicians whom I had consulted were unable to do me any good. Last fall a year ago I began using S. S. S. At first it inflamed the sore, and it became more virulent than ever; so much so, indeed, that my family insisted that I should leave off the medicine. I persisted in using the S. S. S. At the end of two months the sore was entirely healed. Thinking that the evil was out of my constitution, I left off the medicine; but in November, ten months after, a very slight breaking out appeared. I at once began again on S. S. S., and now that is also disappearing. I have every faith in S. S. S. It has done me more good than all the doctors and other medicines I ever took.

Yours truly,

A. R. Shands.
